A Divided Republic Emile Chabal, 2015-04-02 This book is an original and sophisticated historical interpretation of contemporary French political culture Until now there have been few attempts to understand the political consequences of the profound geopolitical intellectual and economic changes that France has undergone since the 1970s However Emile Chabal s detailed study shows how passionate debates over citizenship immigration colonial memory the reform of the state and the historiography of modern France have galvanised the French elite and created new spaces for discussion and disagreement Many of these debates have coalesced around two political languages republicanism and liberalism both of which structure the historical imagination and the symbolic vocabulary of French political actors The tension between these two political languages has become the central battleground of contemporary French politics It is around these two poles that politicians intellectuals and members of France s vast civil society have tried to negotiate the formidable challenges of ideological uncertainty and a renewed sense of global insecurity

Law and Citizenship Law Commission of Canada, 2011-11-01 Long confined to the study of nationality citizenship was not always considered a major concern of social scientists In recent decades however the concept of citizenship has generated significant interest and intellectual debate in a variety of academic contexts Globalization is changing the relationships between actors on the national and international stage and shifting the balance of power between them These changes have spawned a wealth of scholarship across social science disciplines The essays in *Law and Citizenship* add to this lively discourse and provide a framework for analyzing citizenship in an increasingly globalized world A number of fundamental issues are addressed How are traditional notions of

citizenship erecting borders against those who are excluded What are the impacts of changing notions of state borders and participation on our concepts of citizenship Within territorial borders to what extent are citizens able to participate given that the principles of accountability transparency and representativeness remain ideals There are numerous implications of the concept of citizenship for law and public policy in a number of different fields International law both private and public poverty law immigration law constitutional law history political science and sociology all reflect concepts of citizenship Law and Citizenship will appeal to scholars and students in law and politics as well as those interested in the idea of citizenship in contemporary society

France in Crisis Timothy B. Smith, 2004-11-11 Timothy Smith argues that the French economy and society is in crisis and that globalization is not to blame

Welfare States and the Future B. Vivekanandan, N. Kurian, 2005-01-06 This volume presents a thought provoking analysis of key welfare state issues engaging policy makers across the globe It provides a unique and comprehensive evaluation of the state of welfare states developed and developing It maps the diversity of welfare regimes across the world and brings to fore the particularities and nuances that characterise them The book also focuses on the on going reforms and makes a powerful case for the increased relevance of the welfare state in a globalizing era

Democracy Past and Future Pierre Rosanvallon, 2006 Pierre Rosanvallon is a remarkable political thinker who sheds new light on the theory and practice of democracy This collection brings his important work to an English speaking audience It will enrich our understanding of the perils and possibilities of democratic politics Michael Sandel Harvard University

Les ressentiments de la société du travail Sacha Leduc, 2012-04-01 Un certain nombre de salariés de l'Assurance maladie doutent du bien fondé de l'action sociale en matière de santé et pratiquent pour certains des restrictions voire des refus d'accès au droit certaines populations Cet ouvrage revient sur la crise de légitimité d'un dispositif institutionnel d'action sociale la couverture maladie universelle CMU en soulignant particulièrement celles et ceux qui ont été chargés de sa mise en œuvre

L'Etat à l'épreuve du social Philippe Auvergnon, 1998 *L'État social face au commerce international* Daniel Damásio Borges, 2013-10-01 La notion d'état social est utilisée dans le cadre de cette étude pour synthétiser les normes sociales internationales vocation universelle Ces normes obligent les états intervenir dans l'activité économique dans le but de faire face la question sociale Cette branche du droit international est aujourd'hui remise en cause par le système commercial multilatéral En effet les règles de l'OMC restreignent cet interventionnisme étatique en vue de protéger la libre concurrence commerciale

Reducing Inequalities Rémi Genevey, R. K. Pachauri, Laurence Tubiana, 2013-01-01 The reduction of inequalities within and between countries stands as a policy goal and deserves to take centre stage in the design of the Sustainable Development Goals agreed during the Rio 20 Summit in 2012 The 2013 edition of *A Planet for Life* represents a unique international initiative grounded on conceptual and strategic thinking and most importantly empirical experiments conducted on five continents and touching on multiple realities This unprecedented collection of works proposes a solid empirical approach rather than an ideological one to inform future debate The case studies collected in this volume

demonstrate the complexity of the new systems required to accommodate each country's specific economic political and cultural realities These systems combine technical financial legal fiscal and organizational elements with a great deal of applied expertise and are articulated within a clear well understood growth and job generating development strategy Inequality reduction does not occur by decree neither does it automatically arise through economic growth nor through policies that equalize incomes downward via ill conceived fiscal policies Inequality reduction involves a collaborative effort that must motivate all concerned parties one that constitutes a genuine political and social innovation and one that often runs counter to prevailing political and economic forces **Pierre Rosanvallon's Political Thought** Oliver

Flügel-Martinsen, Franziska Martinsen, Daniel Schulz, Stephen W. Sawyer, 2019 The work of Pierre Rosanvallon has increasingly found itself at the center of debates in democratic and political theory This interdisciplinary volume the first comprehensive collection on his political thought in English seeks to lay the groundwork for the study of this eminent political thinker and historian Les constructions de l'action publique Jean-Louis Genard, 2007-01-01 La gestion publique se veut désormais participative les usagers sont invités à être des citoyens autonomes et responsables Au-delà des effets de rhétorique comment prend forme cette action publique Cet ouvrage présente une série d'études de cas de différents secteurs en France en Belgique et en Suisse prévention du sida aide sociale aménagement du territoire architecture éducation et culture Des contributions qui donnent à voir et à penser une action publique en mouvement avec ses fragilités ses ouvertures mais aussi ses limites **LIBERALISME ET PROTECTION DE L'ENVIRONNEMENT** Michelle Kergoat, 1999-12-01 Cet ouvrage traque le vrai visage du libéralisme philosophie politique dont l'ampleur une fois compressée et réduite au domaine économique devient caricature L'auteur interroge les grandes œuvres libérales en regard des questions environnementales aujourd'hui pressantes Les limites internes au libéralisme et posées par les fondateurs suffiront-elles aujourd'hui à garantir la pérennité d'un environnement viable pour la nature comme pour l'homme ou de nouvelles règles fondamentales doivent-elles être forgées

L'État social dans tous ses états Manuel Boucher, 2014-01-01 À quels types de preuves les intervenants sociaux doivent-ils faire face Quelles capacités d'action et de ressources individuelles et collectives mobilisent-ils pour surmonter ces preuves Les mutations de l'intervention sociale contribuent-elles à produire une démocratisation du champ social ou produisent-elles une complexification des formes de domination Ce livre collectif fait l'état des lieux des transformations de l'état social et de ses conséquences sur l'état de la régulation sociale de l'intervention sociale et du lien social au sein des sociétés modernes

État et Églises dans le Brésil du XXI^{ème} siècle Elliott Mourier, 2016-11-15 Cet ouvrage propose une nouvelle approche des mutations contemporaines du rapport entre politique et religion dans la modernité fondée sur le concept de partenariats public religieux À travers le cas du Brésil contemporain la souplesse de la comparaison entre l'état et les églises permet l'instauration de ces collaborations gagnant-gagnant notamment dans la mise en œuvre des politiques sociales l'auteur apporte un regard original sur les transformations de l'action publique l'œuvre dans nos sociétés modernes *Revue française des affaires*
