## La Question Sdf:

La question SDF Julien Damon, 2012 Jusqu'où est-il légitime et efficace de catégoriser les sans-abri et les réponses données leurs difficultés Les SDF sont depuis une trentaine d'années ciblés par des dispositifs spécialisés Typique des phénomènes d'hybridation de l'action publique le système de prise en charge rassemble autour de lui les associations les collectivités locales les médias et les sans-abri eux-mêmes Le développement et l'institutionnalisation des dispositifs d'assistance tout en retentissant sur l'architecture d'ensemble de la protection sociale contribuent à faire des SDF de véritables acteurs sociaux L'analyse conjointe de l'action publique ciblée et de la catégorie laquelle elle est destinée permet une évaluation critique du prioritarisme la priorité au plus défavorisé du ciblage et du partenariat dans la mise en œuvre des politiques publiques Cette deuxième édition contient une préface insistant sur les inerties et transformations de la question SDF qui caractérisent la décennie 2000

**Second-Class Citizenship** Eric Mutabazi, Nathanaël Wallenhorst, 2025-05-02 A number of features of the contemporary period are preventing people from exercising their citizenship the acceleration and permanent change in the conditions shaping habitability of planet Earth the digital and technological revolution the rise of religious and political radicalisation the explosion of social inequalities the hegemony of the economic drive to maximise individual interests etc For many individuals citizenship appears to be prevented at the first hurdle What is more though officially or legally it is not possible to speak of second class citizenship so what can be done when the actors themselves use such terminology There is something essential here which must be taken into account as a basis for thinking about the social inequalities and its injustices The authors of this book propose the notion of second class citizenship as a way of thinking about the scale of contemporary social and political inequalities In view of this observation the contributors outline a movement based on the conviction that education is the repository of the power to prepare for the future How can we learn to build a shared world together and overcome the obstacles that prevent us from doing so How can we learn new habits of relationships marked by responsibility and hospitality The collective reflection in this book lends credence to the way in which players talk about their experience even experiencing differences in their ability to participate in the mechanisms of power This book presents empirical studies and conceptual tools for thinking about the impact of economic factors on the ways in which citizens participate in the decisions of power This book is particularly suited for educators as well as policy makers and researchers
