Corporate Regulation for Climate Change Mitigation in Africa Kikelomo O. Kila,2022-09-08 This book critically analyses the prospects of overhauling the legal framework of climate change regulation of corporations in African state It adopts the dilute interventionism regulatory framework to tackle the culture of regulatory resistance by corporations in Africa Over the course of this volume Kikelomo O Kila critiques the climate change legal framework in all 53 African states and conducts an in depth case study of the two largest economies in Africa Nigeria and South Africa to highlight the commonality of the problems in Africa and the potential for the dilute interventionism paradigm to significantly address these problems The book establishes why African states should directly intervene through legislative mechanisms to compel corporations to incorporate climate change mitigation in their business activities It proposes that this direct intervention should comprise a blend of prescriptive and facilitative mechanisms structured in a dilute interventionism regulatory model Overall this volume argues that implementing this model requires the institution of a strong and independent regulator with a veto firewall protection system that guarantees its de facto independence from government and external influences Corporate Regulation for Climate Change Mitigation in Africa will be of great interest to climate change stakeholders at the international regional and domestic levels policymakers regulatory practitioners and legal experts on corporate regulation It will also be an insightful resource for students and scholars of climate change and environmental law policy and governance *Foreign Investment in Latin America and the Caribbean 2006* United Nations. Economic Commission for Latin America and the Caribbean,2007 This is the latest in a series of annual reports on recent trends and developments in relation to foreign direct investment FDI and investment strategies in Latin America and the Caribbean region The main message of this year s report

is that active and integrated FDI attraction policies linked to national development strategies are necessary to secure quality FDI. These lessons are drawn from policy practices in the more successful European and Asian countries which contrast with the more passive and disconnected FDI attraction policies evident in Latin America and the Caribbean. The 2006 report also contains chapters that analyse the experiences of two relatively small investor countries in Latin America and the Caribbean: the Republic of Korea and Portugal. **Korea Money**, 1998 **OECD Information Technology Outlook 2008**
OECD, 2009-01-26 This 2008 edition of the OECD Information Technology Outlook analyses recent developments in the IT goods and services industries and suggests that the outlook is for constrained but continued long term growth. *Moody's Industrial News Reports*, 1998-07 *Moody's OTC Industrial News Reports*, 1997-06
