No detailed description available for Semiotic Theory and Practice Volume 1 2 Towards a Public Space Marta Sequeira, 2017-09-22 Selected in the top eight short list for the Thought and Criticism category of the FAD Awards 2019 Le Corbusier is well known for his architectural accomplishments which have been extensively discussed in literature Towards a Public Space instead offers a unique analysis of Le Corbusier's contributions to urban planning The public spaces in Le Corbusier's plans are usually considered to break with the past and to have nothing whatsoever in common with the public spaces created before modernism This view is fostered by both the innovative character of his proposals and by the proliferation in his manifestos of watchwords that mask any evocation of the past like *l'esprit nouveau* new spirit and *l'architecture de demain* architecture of tomorrow However if we manage to rid ourselves of certain preconceived ideas which underpin a somewhat less than objective idea of modernity we find that Le Corbusier's public spaces not only didn't break with the historical past in any abrupt way but actually testified to the continuity of human creation over time Aimed at academics and students in architecture architectural history and urban planning this book fills a gap in the systematic analysis of Le Corbusier's city scale plans and specifically Corbusian public spaces following the Second World War **The Suburbs** Marie Bouchet, Nathalie Cochoy, Isabelle Keller-Privat, Mathilde Rogez, 2022-02-01 While suburbs provide a rich field of research for sociologists architects urbanists and anthropologists they have not been given much attention in literary and cultural studies The Suburbs New Literary Perspectives sets out to enrich the limited existing body of critical analysis on the subject with a landmark collection of essays offering a far larger perspective than the books or collections published so far on the topic This interdisciplinary and wide ranging approach includes literary and art studies philosophy and cultural comment It examines the suburbs across cultural differences contrasting British South African and North American suburbs The specificity of this book therefore lies in a cross national and cross continental exploration of these unchartered territories The suburbs are redefined as those rebellious margins whose geographical borders are necessarily fuzzy and sketch out a common place where cultural frontiers can be transcended They are to use Sarah Nuttall's terminology places of entanglement where contraries meet and where new ways of being in the world is reborn Seen through the prism of art and literature the suburbs may then be recognized as philosopher Bruce B.
