Designing Cost Management Systems to Support Business Decision-Making Pieter Buys, 2021-07-19 This book illustrates the importance effective cost management systems in providing a supportive environment in which reliable and relevant management information can be generated Such a cost management system is only attainable if the importance of key business operational and stakeholder requirements are recognised within the organisational context In illustrating this importance this book provides several case studies as examples thereof The first two case studies focus on the engineering sector and illustrates the development of a cost

management system in a water recycling context and the design of a budgetary system in a mining engineering context The remaining case studies focus on the services sector including cost management systems for a digital technology services provider and a medical insurance services provider an alternative activity based costing approach for a public sector services provider and finally a re designed value stream for an automotive services provider Academic researchers and industry managers in the fields of management accounting and financial management as well as engineering and operations management will find value in the experiences described herein

Advances in Cross-Section Data Methods in Applied Economic Research Nicholas Tsounis,Aspasia Vlachvei,2020-02-24 This proceedings volume presents new methods and applications in applied economics with special interest in advanced cross section data estimation methodology Featuring select contributions from the 2019 International Conference on Applied Economics ICOAE 2019 held in Milan Italy this book explores areas such as applied macroeconomics applied microeconomics applied financial economics applied international economics applied agricultural economics applied marketing and applied managerial economics International Conference on Applied Economics ICOAE is an annual conference that started in 2008 designed to bring together economists from different fields of applied economic research in order to share methods and ideas Applied economics is a rapidly growing field of economics that combines economic theory with econometrics to analyze economic problems of the real world usually with economic policy interest In addition there is growing interest in the field of applied economics for cross section data estimation methods tests and techniques This volume makes a contribution in the field of applied economic research by presenting the most current research Featuring country specific studies this book is of interest to academics students researchers practitioners and policy makers in applied economics econometrics and economic policy

Proceedings of the 4th Asia Pacific Management Research Conference (APMRC 2022) Eva Hotnaidah Saragih,Rike Penta Sitio,Rosita Fitriyani,Dhinar Silalahi,Yeneneh Tamirat Negash,2023-02-10 This is an open access book It has been our great honor to welcome all the participants to the 4th Asia Pacific Management Research Conference was held in Surabaya Indonesia on May 18th 20th 2022 as a hybrid conference virtually conference I recalled formulating the concept and conducting this conference with the Research Center and Case Clearing House RC CCH Team back in 2017 The conference encourages fresh and impactful studies that address the latest issues and topics particularly in economics management business and accounting The forum particularly welcomes the discussion and sharing among research fellows in a semi formal academic setting As we reach the fourth conference we are confident that we will maintain a contribution to the global literature It is undeniable that the theme of the COVID 19 Pandemic is the main issue of this fourth conference but rather than focusing on the misery we look for models technologies and concepts that are beneficial for the economy and businesses to grow toward the new normal This conference received 136 abstracts of which 57 were accepted articles in Atlantis Proceeding
