

TrueType®

TrueType® is a font technology developed by Apple Computer, Inc. It is a vector font technology, meaning that the font is stored as a series of mathematical formulas that define the shape of each character. This allows for high-quality scaling and printing at any size. TrueType® fonts are widely used in Mac OS X and Microsoft Windows operating systems, as well as in many other applications and documents.

TrueType® History

TrueType® was first introduced in 1985 as a font technology for the Macintosh computer system. It was developed by Apple Computer, Inc. and was designed to be a vector font technology that could be scaled to any size without losing quality. The first TrueType® font, "Times New Roman", was released in 1985. Since then, TrueType® has become one of the most popular font technologies in the world, with millions of fonts available for download and purchase.

TrueType® Features

TrueType® features a wide range of features that make it a versatile font technology. These features include:

- High-quality scaling:** TrueType® fonts can be scaled to any size without losing quality, making them ideal for both small and large printouts.
- Vector-based:** TrueType® fonts are stored as a series of mathematical formulas that define the shape of each character, allowing for high-quality scaling and printing at any size.
- Wide range of characters:** TrueType® fonts include a wide range of characters, including accented characters, ligatures, and special characters.
- TrueType® Open:** TrueType® Open is a version of the TrueType® font technology that includes support for OpenType features, such as ligatures and alternates.

TrueType® is a registered trademark of Apple Computer, Inc.
