### **Hodgepodge English Edition:**

*Theaters of Translation* Andrew S. Keener, 2025 In *Theaters of Translation* Cosmopolitan Vernaculars in Shakespeare's England Andrew S. Keener argues that plays by Thomas Kyd, Mary Sidney Herbert, Ben Jonson and others were shaped by and contributed to a multilingual Europe full of dictionaries, grammars and language learning dialogues. Bringing together critical discussions and methodologies in transnational literary studies, book history and the history of theater and performance, Keener proposes a fresh multilingual approach to English Renaissance drama in a way that also liberates the histories of early modern languages and literatures from their national silos. Rather than accepting Shakespeare as England's national playwright and instead of inscribing the period's theater and drama within England's political, geographic and linguistic limits, *Theaters of Translation* demonstrates the intercourse between England's drama and the great variety of multilingual dictionaries, dialogues, grammars and language manuals circulating throughout Europe. Covering the period 1570-1640 when England's drama and crucially the English language itself was a proving ground for linguistic mixture, Keener emphasizes the term cosmopolitan vernaculars, which refers to non-classical languages that modeled transnational forms of belonging for playgoers, readers and authors across early modern Europe. In doing so, he challenges scholarship that continues to figure Renaissance England as a site of national and linguistic cohesion. The critical genealogy of the term cosmopolitan vernaculars is itself rooted in studies of premodern Sanskrit and in postcolonial theory addressing the British Empire, so by acknowledging the complexities associated with the terms cosmopolitanism and vernacularity, Keener offers a conceptual and historical bridge between the medieval period and the imperial era, making room for linguistic considerations of cosmopolitanism in England among French, Italian, Spanish and other European languages in relation to the English theater. Linking recent contributions to cosmopolitan theory with transnational studies of early modern literature and culture, particularly studies examining the dynamics of multiple languages, translation and polyglot manuals and dictionaries in Europe, *Theaters of Translation* highlights both the ways in which cosmopolitanism manifests through vernacular languages in print and performance and the ways languages themselves can exhibit cosmopolitanism for those who encounter them on the page or on the stage. With this evidence, Keener analyzes the workings of cosmopolitan vernaculars in early modern England and in ways that open up new transnational interpretations of plays. *Theaters of Translation* also seeks to make much more out of details known to scholars already, such as the fact that Ben Jonson owned and annotated a copy of Pietro Aretino's scandalous Italian dialogues or that Shakespeare's First Folio was advertised for sale in Germany before its London publication, but which have been overlooked or obscured because they do not always agree with the prevailing nationally focused approaches to early modern drama in England.

Mann,2012-02-15 A central feature of English Renaissance humanism was its reverence for classical Latin as the one true form of eloquent expression Yet sixteenth century writers increasingly came to believe that England needed an equally distinguished vernacular language to serve its burgeoning national community Thus one of the main cultural projects of Renaissance rhetoricians was that of producing a common vernacular eloquence mindful of its classical origins yet self consciously English in character The process of vernacularization began during Henry VIII s reign and continued with fits and starts late into the seventeenth century In *Outlaw Rhetoric* Jenny C Mann examines the substantial and largely unexplored archive of vernacular rhetorical guides produced in England between 1500 and 1700 Writers of these guides drew upon classical training as they translated Greek and Latin figures of speech into an everyday English that could serve the ends of literary and national invention In the process however they confronted aspects of rhetoric that run counter to its civilizing impulse For instance Mann finds repeated references to Robin Hood indicating an ongoing concern that vernacular rhetoric is outlaw to the classical tradition because it is common popular and ephemeral As this book shows however such allusions hint at a growing acceptance of the nonclassical along with a new esteem for literary production that can be identified as native to England Working across a range of genres Mann demonstrates the effects of this tension between classical rhetoric and English outlawry in works by Spenser Shakespeare Sidney Jonson and Cavendish In so doing she reveals the political stakes of the vernacular rhetorical project in the age of Shakespeare     **The Green Book Magazine** ,1913     **The Oxford English Dictionary** James Augustus Henry Murray, Henry Bradley,1975     **Golden Age** ,1926     The Classical Journal ,1927     *Bermuda Hodge Podge* Jean de Chantal Kennedy,1975     **The office standard dictionary of the English language, abridged from Funk & Wagnalls Standard dictionary, by J.C.
