## **High School Anatomy Physiology Pbl:**

*How to Use Problem-based Learning in the Classroom* Robert Delisle, Association for Supervision and Curriculum Development, 1997 Engaging and motivating students especially the least motivated learners is a daily challenge. But with the process of problem based learning PBL any teacher can create an exciting active classroom where students themselves eagerly build problem solving skills while learning the content necessary to apply them. With problem based learning students work begins with an ill defined problem. Key to this problem is how it explicitly links something important in students daily lives to the classroom. This motivational feature is vital as students define the what where and how of resolving the problem situation. Problem based learning may sound potentially chaotic and haphazard but it rests on the firm foundation of a teacher's work behind the scenes. The teacher develops a problem long before students see it specifically choosing the skills and content the problem will emphasize and matching those to curriculum and standards. Though a PBL problem will have no right answer the teacher structures the experience so that specific learning takes place as students generate the problem solving steps research issues and produce a final product. The teacher guides without leading assists without directing

**Beat Boredom** Martha Rush, 2017 Are your students bored in class? According to research a majority of American high school students report being bored in class and fewer than 5% claimed that they were rarely bored during a typical day in school. Former journalist and veteran teacher Martha Rush decided this would not do for her Minnesota students. Moving beyond asking open ended questions and making connections to their own lives Martha began to engage her government journalism and economics classes in meaty discussions competitions simulations and authentic work like running a newspaper or starting a business. Building on her more than 800 interviews with high school graduates she offers up strategies in all subject areas for active engagement moving way beyond traditional passive memorization of information. She describes how to create innovative experiences in your classroom and shares her own lessons and her students' work. Beat Boredom will help you join the ranks of teachers who have challenged the status quo and found ways to motivate even the most reluctant learners
