

Overview

Thank you for selecting a security system from Paradox Security Systems Ltd. This advanced technology security system provides you with reliable security protection and powerful features that anyone can use without memorizing complex and confusing codes. The system consists of the control panel, one or more keypad modules, various input devices (e.g. motion detectors, door contacts, etc.) and various output devices (e.g. bells, sirens, lights, etc.).

The elegant and user-friendly MG32LCD, MG32LRF, MG32LED, and MG10LEDV/H keypad modules allow you to easily access your security system's functions and provide you with an easy-to-understand display of your security system's alarm and operational status. All of the actions performed in your security system will be executed and displayed through the keypad. Therefore, before using your security system, we highly recommend that you read this manual carefully and have your installer explain basic system operation to you.

Basic Operations

Auditory Feedback

When you enter information on the keypad, it will guide you with beep tones that communicate acceptance or rejection of your entries. You should be familiar with these two keypad beep tones:

Confirmation Beep: When an operation (e.g. arming/disarming) is successfully entered on the keypad or when the system switches to a new status/mode, the keypad produces an intermittent beep tone ("BEEP-BEEP-BEEP-BEEP").

Rejection Beep: When the system reverts to its previous status or when an operation is incorrectly entered on the keypad, it will emit a continuous beep tone ("EEEEEEEEEEEP").

Visual Feedback

Keypad Indicator Lights: All keypads include coloured lights which convey the current status of your system. The state of each light represents a specific condition in your system.

Many of the features in your system must be enabled by the installer. If the feature is not programmed, the keypad will emit a rejection beep and the action will be cancelled. Refer to System Checklist on page 16 for details.

Overview of the Keypads

The numbers and keys of the keypad's screen communicate your system's status.
