Background Information:

Author Biography

John Steinbeck (1902-1968) was born in Salinas, California. He came from a middle class family. His father was the county treasurer, and his mother was a former schoolteacher. She inspired and encouraged his love of books and reading.

He attended Stanford University, but he did not graduate. In his twenties, he traveled to New York City with the dream of supporting himself as a freelance writer. When his efforts failed, he went home to California. He then began to work seriously on novels and short stories.

When Steinbeck was a young adult, he spent his summer vacations working as a hired hand on local ranches. His interactions with the people he met during those summers greatly influenced the characters he created throughout his career. In an interview following the publication of *Of Mice and Men*, Steinbeck revealed that all the characters in the novel are composites based on real people.

Steinbeck said in his essay "Advice For Beginning Writers" (1963) that he still felt afraid every time he began writing a story, even though he had a long successful writing career behind him. He went on to say that a writer who does not experience this fear may not have an appropriate respect for the art of writing.

Book Summary

Of Mice and Men was published in 1937. The story epitomizes the themes and ideas that Steinbeck propounded throughout his novels: the plight of the laborers, the perils of isolation, and the hope for a better future. Set in California during the Great Depression, *Of Mice and Men* is an excellent vehicle to learn about the life and times of migrant workers in the 1930s. With its beautiful descriptive passages, easily accessible dialogue, and fast-paced timeline, it is very easy to follow along. Readers are drawn in by the memorable characters, that, ironically, represent a segment of society that was largely ignored in its day. Analyzing the balance of power, the importance of friendship, and the role of dreams in our lives allows readers to gain a deeper understanding of the text while applying valuable lessons to their own lives.

Using

Discussion to Promote Reading Comprehension Donna E. Alvermann, Deborah R. Dillon, David G. O'Brien, 1987 Drawing from observations of discussion in 24 different classrooms this book will provide preservice and inservice teachers at the middle and school levels with the motivation and knowledge to use discussion to foster student comprehension of content area text assignments. The first chapter examines the distinctions between discussion and recitation and redefines major issues related to content area discussion in light of recent research and school reform reports. The second chapter establishes a basis for the premise that discussion is important to the development of reading comprehension illustrating those skills that enrich or refine students' understanding of text. The third chapter uses portions of transcripts from videotaped content class discussions to illustrate how classroom context influences discussion practices. Alternatives to teacher dominated discussions are described and guidelines are provided for establishing the rights and responsibilities of critical readers. The fourth chapter demonstrates how to plan for classroom discussion of assigned material describing five aspects of the planning process. The fifth chapter presents discussion strategies that help students master the content, examine more than one side of the issue and evaluate alternative solutions to a text based problem while the sixth chapter analyzes one content area teacher's implementation of a preplanned discussion. Finally the seventh chapter describes two procedures for informally evaluating classroom discussion used to promote reading comprehension. References follow each chapter.
