The Bloomsbury Handbook of the Anthropology of Sound Holger Schulze, 2020-12-10 The Bloomsbury Handbook of the Anthropology of Sound presents the key subjects and approaches of anthropological research into sound cultures. What are the common characteristics as well as the inconsistencies of living with and around sound in everyday life? This question drives research in this interdisciplinary area of sound studies. It propels each main chapter of this handbook into a thoroughly different world of listening, experiencing, receiving, sensing, dreaming, naming, desiring and crafting sound. This handbook is composed of six sections: sonic artifacts, sounds and the body; habitat and sound; sonic desires; sounds and machines; and overarching sensologies. The individual chapters explore exemplary research objects and put them in the context of methodological approaches, historical predecessors, research practices and contemporary research gaps. This volume offers therefore one of the broadest, most detailed and instructive overviews on current research in this area of sensory anthropology.

LASTING SOLUTION TO OIL-AND-FOOD CRISES STEVE Dr. ESOMBA, 2012-05-29. Since the mid 1980s or even earlier the global economy has continuously been plagued by one energy and food crisis or another. The ups and downs of the energy industry and market buoy and bubble along with food commodity prices. Every slight movement backwards or forward of crude features impacts food commodity prices on which the poor as well as the rich depend on for survival. This umbilical link between oil prices and food prices tortures our swelling populations especially those in poor underdeveloped countries. LASTING SOLUTIONS TO OIL AND FOOD PRICES is a bold attempt to address permanent solutions to this appalling situation. More ideas are needed and much more bolder action. We must tackle these perpetual oil and food problems. Our populations keep increasing. Many teeming mouths to feed. Your contribution is welcome. Thanks.
