is more diffused The muted flash is used to allow for a dim muted detail in the background The tipped flash technique is a combination of bounce flash and straight flash The feather flash is used for a large group of people Many beginner enthusiasts spend good money on the latest flashguns with all the gizmos and buttons thinking that is all they need Well as in any art form it takes a lot of practice to learn how to use all sorts of flash devices to master the techniques so that you can get the desired results in each and every photograph
