striking hypotheses the author advances in this dynamic study of a music and its followers Of the one hundred metalheads interviewed for this volume ten have allowed themselves to be profiled in depth the reader becomes fully acquainted with Jack for instance and with the multiple crosses decorating his body his black rose tattoo and his tumultuous family life or with slim and well groomed Jean dressed entirely in black her favorite color and wearing the temperament of withdrawal This is a unique study filled with compassion for a disenfranchised subculture and the respect to want to understand it
