A Manual of Signals Albert James Myer, 2012-08-01. Unlike some other reproductions of classic texts:

- 1 We have not used OCR (Optical Character Recognition) as this leads to bad quality books with introduced typos.
- 2 In books where there are images such as portraits, maps, sketches, etc. We have endeavored to keep the quality of these images so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

A Manual of Signals; for the Use of Signal Officers in the Field, and for Military and Naval Students, Military Schools, Etc Albert James Myer, 2013-09. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book without typos from the publisher. Not indexed. Not illustrated. 1872 edition. Excerpt: Very great quickness in the bringing of objects within the field of view can be soon acquired. The eye becomes educated to a remarkable keenness of vision by continued practice. When observations are made with the telescope or when messages are being received by it by signals, nothing must be taken for granted and nothing considered as being until it has been positively in view and so clearly as not to admit of doubt. Never presume to anticipate what signals will follow from those already made. A signal must never be considered or announced as read until it has been actually seen. Carefully watch the communicating station until the last signals are made and be very certain before ceasing to watch that the signal for the end of a message has been distinctly given. The officers at each signal station must take care that a lookout through the glass is kept at each station so constantly that no signal can be shown at any time at the communicating station for more than two minutes.

without receiving an answer For this reason when not at the glass himself he will cause his men or any one on duty at the station to keep a regular glass watch assigning the men by turns and fixing particular hours for each that responsibility for neglect may be easily traced These details will relieve each other every two or four hours day and night The watchman on duty must be seated at the glass and before assuming his station must with the aid of the soldier last on duty make certain that he knows the exact position of the observed station and that it is plainly in the field of the glass This precaution is particularly necessary at night when the least movement of the glass may have thrown the station out of view All A Manual of Signals for the Use of Signal Officers in the Field Albert James Myer, United States Army. Signal Corps, 1913-10 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book The below data was compiled from various identification fields in the bibliographic record of this title This data is provided as an additional tool in helping to ensure edition identification A Manual Of Signals For The Use Of Signal Officers In The Field And For Military And Naval Students Military Schools Etc Albert James Myer United States Army Signal Corps Gov t print off 1879 History Military United States Biography History Military United States **Manual of Visual Signaling of the U.
