McMann,2015-02-06 Why do ordinary people engage in corruption Kelly M McMann contends that bureaucrats poverty and culture do not force individuals in Central Asia to pay bribes use connections or sell political support Rather corruption is a last resort when relatives groups in society the market and formal government programs cannot provide essential goods and services Using evidence from her long term research in Kazakhstan and Kyrgyzstan McMann shows that Islamic institutions secular charities entrepreneurs and banks cannot provide the jobs and credit people need This drives individuals to illicitly seek employment and loans from government officials A leading cause of this resource scarcity is market reform as demonstrated by McMann s analysis of these countries as well as of Uzbekistan and global data Market reform without supporting institutions such as credit registries and antimonopoly measures limits the resources available from the market and societal groups McMann finds that in these circumstances only those individuals who have affluent relatives have an alternative to corruption By focusing on ordinary people McMann offers a new understanding of corruption Previously our knowledge was largely restricted to government officials role in illicit exchanges From her novel approach comes a useful policy insight supplying ordinary people with alternatives to corruption is a fundamental and important anticorruption strategy **Chinese Migrants in Russia, Central Asia and Eastern Europe** Felix B. Chang,Sunnie T. Rucker-Chang,2013-03-01 Much of the former Soviet bloc has become a destination for new Chinese migrants Throughout Russia Eastern Europe and Central Asia Chinese migrants are engaged in entrepreneurial activities primarily as petty merchants of consumer goods in unsteady economies This book situates these migrants within the broader context of Chinese globalization and China s economic rise It traces the origins of Chinese migration into the region as well as the conditions that have allowed migrants to thrive Furthermore it discusses the perception that Chinese globalization is purely economic and explores the relationship among petty merchants labourers and institutional investors Finally by examining the movement of China s minorities into Central Asia this book challenges the ethnic construct of new Chinese migration The Commercial Motor ,1946 **Annual Report** United States.
