Grade Computer Science:

Computer Science in K-12 Shuchi Grover, 2020-04 Coding teaches our students the essence of logical thinking and problem solving while also preparing them for a world in which computing is becoming increasingly pervasive. While there is excitement and enthusiasm about programming becoming an intrinsic part of K-12 curricula the world over, there is also growing anxiety about preparing teachers to teach effectively at all grade levels. This book strives to be an essential, enduring practical guide for every K-12 teacher anywhere who is either teaching or planning to teach computer science and programming at any grade level. To this end, readers will discover An A to Z organization that affords comprehensive insight into teaching introductory programming 26 chapters that cover foundational concepts, practices, and well-researched pedagogies related to teaching introductory programming as an integral part of K-12 computer science. Cumulatively, these chapters address the two salient building blocks of effective teaching of introductory programming: what content to teach, concepts and practices, and how to teach pedagogy. Concrete ideas and rich grade-appropriate examples inspired by practice and research for classroom use. Perspectives and experiences shared by educators and scholars who are actively practicing and/or examining the teaching of computer science and programming in K-12 classrooms.

Computer Science for the Real World, 2017-08-15 In today's world, Computer Science literacy is as important as reading, writing, and math. Computer Science will be a part of every student's future career regardless of the discipline and is therefore an essential part of college and career readiness. At school districts throughout the country and in conjunction with parents' wishes, Computer Science instruction is beginning in the earliest grades where computational thinking and concepts of digital citizenship can be cultivated across the curriculum. COMPUTER SCIENCE FOR THE REAL WORLD is a new program created specifically to embed core concepts and core practices from the new K12CS Framework into high-interest, leveled texts. This fiction set explores stories that combine grade-appropriate science topics with a concept or practice from the K12CS Framework. The back cover indicates the GRL level as well as the exact concept or practice from the K12CS Framework.
