Chinese Theatre Troupes in Southeast Asia Beiyu Zhang, 2021-05-27 A detailed account of the cultural history of the Chinese diaspora with a focus on the performers and audiences who were involved in the making of Chinese performing cultures in Southeast Asia. Focusing on five different kinds of theatre troupes from China and their respective travels in Singapore, Bangkok, Malaya, and Hong Kong, Zhang examines their different travelling experiences and divergent cultural practices. She thus sheds light on how transnational mobility was embodied, practised, and circumscribed in the course of troupes travelling, sojourning, and interacting with diasporic communities. These troupes communicated diverse discourses and ideologies influenced by different social and political movements in China, and these meanings were further altered by transmission. By unpacking multiple ways of performing Chineseness that was determined by changing time-space constructions, this volume provides valuable insight for scholars of the Chinese Diaspora, Transnational History, and Performing Arts in Asia.

Diaspora's Homeland Shelly Chan, 2018-03-15 In *Diaspora's Homeland*, Shelly Chan provides a broad historical study of how the mass migration of more than twenty million Chinese overseas influenced China's politics, economics, and culture. Chan develops the concept of diaspora moments: a series of recurring disjunctions in which migrant temporalities come into tension with local, national, and global ones to map the multiple historical geographies in which the Chinese homeland and diaspora emerge. Chan describes several distinct moments, including the lifting of the Qing emigration ban in 1893, intellectual debates in the 1920s and 1930s,

about whether Chinese emigration constituted colonization and whether Confucianism should be the basis for a modern Chinese identity as well as the intersection of gender returns and Communist campaigns in the 1950s and 1960s Adopting a transnational frame Chan narrates Chinese history through a reconceptualization of diaspora to show how mass migration helped establish China as a nation state within a global system

Translating China as Cross-Identity Performance James St. André, 2018-05-31 James St André applies the perspective of cross identity performance to the translation of a wide variety of Chinese texts into English and French from the eighteenth to the twentieth centuries Drawing on scholarship in cultural studies queer studies and anthropology the author argues that many cross identity performance techniques including blackface passing drag mimicry and masquerade provide insights into the history of translation practice He makes a strong case for situating translation in its historical social and cultural milieu reading translated texts alongside a wide variety of other materials that helped shape the image of John Chinaman A reading of the life and works of George Psalmanazar whose cross identity performance as a native of Formosa enlivened early eighteenth century salons opens the volume and provides a bridge between the book's theoretical framework and its examination of Chinese European interactions The core of the book consists of a chronological series of cases each of which illustrates the use of a different type of cross identity performance to better understand translation practice St André provides close readings of early pseudotranslations including Marana's Turkish Spy 1691 and Goldsmith's Citizen of the World 1762 as well as adaptations of Hatchett's The Chinese Orphan 1741 and Voltaire's Orphelin de la Chine 1756 Later chapters explore Davis's translation of Sorrows of Han 1829 and genuine translations of nonfictional material mainly by employees of the East India Company The focus then shifts to oral aural aspects of early translation practice in the nineteenth century using the concept of mimicry to examine interactions between Pidgin English and translation in the popular press Finally the work of two early modern Chinese translators Gu Hongming and Lin Yutang is examined as masquerade Offering an original and innovative study of genres of writing that are traditionally examined in isolation St André's work provides a fascinating examination of the way three cultures interacted through the shifting encounters of fiction translation and nonfiction and in the process helped establish and shape the way Chinese were represented The book represents a major contribution to translation studies Chinese cultural studies postcolonial studies and gender criticism

Sinicization and the Rise of China Peter J. Katzenstein, 2013-03-01 China's rise and processes of Sinicization suggest that recombination of new and old elements rather than a total rupture with or return to the past is China's likely future In both space and time civilizational politics offers the broadest social context It is of particular salience in China Reification of civilizations into simple categories such as East and West is widespread in everyday politics and common in policy and academic writings This book's emphasis on Sinicization as a specific instance of civilizational processes counters political and intellectual shortcuts and corrects the mistakes to which they often lead Sinicization illustrates that like other civilizations China has always been open to variegated social and political processes

that have brought together many different kinds of peoples adhering to very different kinds of practices This book tries to avoid the reifications and celebrations that mark much of the contemporary public debate about China's rise It highlights instead complex processes and political practices bridging East and West that avoid easy shortcuts The analytical perspectives of this book are laid out in Katzenstein's opening and concluding chapters They are explored in six outstanding case studies written by widely known authors which over questions of security political economy and culture Featuring an exceptional line up and representing a diversity of theoretical views within one integrative perspective this work will be of interest to all scholars and students of international relations sociology and political science Chapter 7 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
