mankind will soon be able to redesign itself But how will such work be guided What is needed is a manifesto for life which acclaimed author Adrian Woolfson delivers in his examination of life and its future possibilities **Britain Since 1945**

Jonathan Hollowell,2008-04-15 This book offers a comprehensive overview of Britain s development since the end of the Second World War It comprises 23 contributions from leading authorities and newer scholars set in context with a foreword by Raymond Seitz A comprehensive and fascinating introduction to Britain from the end of the Second World War Draws together the themes that have dominated discussion amongst scholars and media commentators The chapters are set in context with a foreword by Raymond Seitz Covers topics such as foreign policy political parties the media race relations women and social change science and IT culture industrial relations the welfare state and political and economic issues in Scotland Wales and Northern Ireland **Acts, Intentions, and Moral Evaluation** Craig M. White,2022-12-27 This book

argues that the moral quality of an act comes from the agent s inner states By arguing for the indispensable relevance of intention in the moral evaluation of acts the book moves against a mainstream objective approach in normative ethics It is commonly held that the intentions knowledge and volition of agents are irrelevant to the moral permissibility of their acts This book stresses that the capacities of agency rather than simply the label agent must be engaged during an act if its moral evaluation is to be coherent The author begins with an ontological argument that an act is a motion or a causing of change in something else He argues that the source of an act s moral meaning is in the agent specifically what the agent if aware of relevant facts around her aims to accomplish He then moves to a series of critical chapters that consider arguments for mainstream approaches to act evaluation including Thomson s dismissal of the agent knowledge and volition requirements Scanlon s arguments for a derivative relevance of intentions to permissibility Frowe s causal roles of agents in the moral evaluation of acts and Bennett s explicit defense of the objective approach The book concludes by offering the author s preferred replacement for the objective approach an Aristotelian Thomist view of acts Acts Intentions and Moral Evaluation will be of interest to scholars and advanced students working in ethics just war theory the ethics of self defense and philosophy of action **Cultural Pessimism** Oliver Bennett,2019-06-01 A provocative and wide ranging analysis of the cultural mood of anxiety and pessimism in the early 21st century **The Campaign Guide** ,1894 **Thinking About**

Political Corruption Peter DeLeon,2015-03-04 Peter deLeon argues that while it is often individuals who actually engage in political corruption it is the US political system that condones or encourages such actions Once this perspective is recognised one can begin to understand ways in which the costs of corruption might be alleviated **Plain Lectures on the Pilgrim's**
