**SYSTEMATIC INSTRUCTION IN READING FOR SPANISH-SPEAKING STUDENTS** Elva Duran, 2013-04-01

Students whose first language is not English are the fastest growing group in public schools in all regions of the United States. Almost 10 million children between the ages of five and 17 live in the homes and communities in which a language other than English is spoken and presently most schools in the U.S. are under educating many English learners. The achievement of Hispanic students needs to improve dramatically over the next five years and this book describes the cornerstone elements for bringing about this change. The initial chapter introduces direct instruction to be used with reading and literacy programs. Chapters 2 and 3 provide excellent review of the literature in language development and address developing language instruction listening and speaking with Spanish speaking students and offers what a comprehensive language development program should look like. Chapter 4 reviews academic language and literacy instruction while the next addresses the components of instruction in Spanish. Chapter 6 offers lesson plan suggestions for Spanish speaking students while the following two sections discuss components that transfer and do not transfer in Spanish to English reading instruction. Chapter 9 reviews English language development and provides lesson plans for implementing SDAIE programs. Finally Chapter 10 discusses two way bilingual immersion and shares actual classroom schedules and lessons. This unique text will help in the preparation of primary grade teachers throughout the U.S. so that they may be successful with Hispanic students entering the public schools with little or no English background. It will also be a useful tool for school districts staff development in addressing school improvement goals for increasing the achievement of Hispanic students. 105-2

**Screen Time Is Not Forever / El tiempo de pantalla no es para siempre** Elizabeth Verdick, 2023-09-15 Children learn boundaries and safety when using screens and fun things to do when screens are off. As important as screens are in our lives we all need to unplug especially children. This reassuring English Spanish bilingual picture book offers children and families a starting point for limiting screen time and making the most of the time you have with your screens and without. While screens are needed for learning and can be helpful and fun they are not intended for use all the time. The American Academy of Pediatrics recommends consistent limits on screen time for children and adults should take steps to ensure online safety for kids. With straightforward suggestions children will learn valuable information about online safety setting healthy screen time boundaries and the importance of screen free time. With her trademark mix of empathy and encouragement author Elizabeth Verdick offers appealing and healthy alternatives to using screens as well as ways to stay safe and happy when online. Illustrator Marieka Heinlen's active and vibrant illustrations of young children interacting with their caregivers and families bring the activities and suggestions for screen free fun to life.
