01

## Keep Accounts!

Note down what you get and what you spend. Always keep a clean record of where your money is going.

02

## Know Your Goals

What do you want in the future? Answering this question will set the groundwork for your financial plan. Save according to your goals.

03

## Don't Forget to Invest

Wealth growth doesn't happen on its own. Invest your money into various avenues, whether it be stocks, gold, or guaranteed returns plans. Investments set the stage for your financial security.

04

## Spend Cautiously

Understand the difference between a need and a want. Try to evaluate your wants and if it's actually worth the money. If not, then consider saving that money for your future goals.

05

## Diversification is the Key!

While investing is important, don't just invest everything into one asset. Consider various lucrative avenues for potential investments. For example, invest in stocks while also putting some money into endowment plans.
