Traube,2019-03-04 In this book Elizabeth Traube argues that over the course of the 1980s Hollywood participated in a wider move by mainstream political and social forces that attempted to absorb and contain critical cultural currents by rehabilitating images of masculine authority At the movies we saw parallel constructions of wild antibureaucratic warrior heroes and smooth seemingly rebellious tricksters adapted to the corporate order We saw the demonization of the independent woman and the complementary formation of the nurturing father as her adversary The author relates these representations to two cultural narratives of long duration the American frontier myth and the myth of success or the American dream both of which also figured prominently in the rhetorical themes of Reagan era politics Utilizing structuralism Marxism feminist object relations psychoanalysis and neoformalist film criticism Traube emphasizes specific aspects of cinematic representations of gender and authority to explore the relationships between culture and politics Unlike other feminist critics of patriarchal Hollywood she stresses the multiple competing versions of masculinity and femininity constructed in Hollywood movies and the different class positions of their primary intended audiences Attention to particular forms that cultural narratives assume in changing circumstances gives Traube s film analyses a unique sociohistorical dimension while her focus on narratives used by political elites as well as by moviemakers reveals significant variations in ideology production in different sites **Reincarnated as a Dragon Hatchling (Light Novel) Vol. 7** Nekoko,NAJI

*Beginnings, Endings, Beginnings* Dino S. Cervigni,2000 **The Internet Myth** Paolo

Bory,2020-04-29 The Internet is broken and Paolo Bory knows how we got here In a powerful book based on original research Bory carefully documents the myths imaginaries and ideologies that shaped the material and cultural history of the Internet As important as this book is to understand our shattered digital world it is essential for those who would fix it Vincent Mosco author of The Smart City in a Digital World The Internet Myth retraces and challenges the myth laying at the foundations of the network ideologies the idea that networks by themselves are the main agents of social economic political and cultural change By comparing and integrating different sources related to network histories this book emphasizes how a dominant narrative has extensively contributed to the construction of the Internet myth while other visions of the networked society have been erased from the collective imaginary The book decodes analyzes and challenges the foundations of the network ideologies looking at how networks have been imagined designed and promoted during the crucial phase of the 1990s Three case studies are scrutinized so as to reveal the complexity of network imaginaries in this decade the birth of the Web and the mythopoesis of its inventor and the histories of two Italian networking projects the infrastructural plan Socrate and the civic network Iperbole the first to give free Internet access to citizens The Internet Myth thereby provides a compelling and hidden sociohistorical narrative in order to challenge one of the most powerful myths of our time This title has been published with the financial assistance of the Fondazione Hilda e Felice Vitali Lugano Switzerland
