

Graduates' Victory Song

by Lenore Hetrick

(Can be sung to "America the Beautiful")

Our goal is won! We've reached the hill
Whose towered summit rose
Before our eyes to tantalize
No secrets to disclose.
We're Graduates! We're Graduates!
Our valor urged the way.
We prospered still! We climbed the hill!
We're Graduates today!

The upward trail was thorny oft,
And great rocks blocked our way.
But to our eyes the golden skies
Forecast a promised May.
We're Graduates! We're Graduates!
True veterans of the trail!
We did not stop! We reached the top!
Our cry was, "NEVER FAIL!"

Education ,1905 **Primary School in Japan** Peter Cave,2007-11-30 The balance between individual independence and social interdependence is a perennial debate in Japan A series of educational reforms since 1990 including the implementation of a new curriculum in 2002 has been a source of fierce controversy This book based on an extended detailed study of two primary schools in the Kinki district of Japan discusses these debates shows how reforms have been implemented at the school level and explores how the balance between individuality and social interdependence is managed in practice It discusses these complex issues in relation to personal identity within the class and within the school in relation to gender issues and in relation to the teaching of specific subjects including language literature and mathematics The book concludes that although recent reforms have tended to stress individuality and independence teachers in primary schools continue to balance the encouragement of individuality and self direction with the development of interdependence and empathy **The Irish school monthly** ,1905 **Diversity and Multiculturalism** Shirley R. Steinberg,2009 This reader demands that we understand diversity and multiculturalism by identifying the ways in which curriculum has been written and taught and by redefining the field with an equitable lens freeing it from the dominant cultural curriculum The book

problematizes the issue of whiteness for instance as not being the opposite of blackness or person of colorness but rather a meta description for our dominant culture. Issues are also addressed that are usually left out of the discussion about diversity and multiculturalism. This reader includes essays on physical diversity, geographic diversity, and difference in sexualities. This is the quintessential collection of work by critical scholars committed to redefining the conversation on multiculturalism and diversity.

Lourdes Diaz Soto, 2006-11-30. Latinos in the United States have fought hard to attain equality especially in the field of education. The Praeger Handbook of Latino Education in the U.S. focuses on this fight for equal educational access and represents a significant addition to American educational literature. The contributors to this volume reveal that many Latino children still face challenges that were present many decades ago. In addition to such obstacles as cultural conflicts and racism, they also face teachers' curricula and assessments that are not always respectful to their backgrounds. Educators, parents, policy makers, and communities across the country will find this work a goldmine of detailed historical and current information.
