### JOURNAL REPORT

#### **Section 1: Activity Summary**

Weeks of June 6<sup>th</sup> & June 13<sup>th</sup>

The last two weeks have consisted mostly off training. I have had several meetings with both my supervisor & my mentor who have been teaching me the ins & outs of the job. They have been teaching me about my responsibilities for the summer and how to perform them. I've learned about the oil & gas industry and how the accounting process works in the industry. I have learned how to navigate the computer system, the AS400 (Samson's Computer System) that holds all current and historic information for the company.

#### **Section 2: Activity Plan**

In the last two weeks I have been assigned the following duties that will occur over the course of the next 3 months. Most of my assignments I will perform once a month. We have a "close" around the 15<sup>th</sup> of every month and most of my duties must be completed by that date.

- 46 different Well Allocations for wells in 7 states
- data entry for tax payments to the General Land Organization of TX (GLD) for both oil & gas (monthly)
- monthly research to find new wells that qualify for a reduced tax rate in the state of Texas (monthly)
- Researching & Resolving variances on specific Well Allocations
- Print many oil & gas leases as well as TOW reports that show expected production
