Hammurabi,2017-05-16 The Code of Hammurabi is one of the most important monuments in the history of the human race Containing as it does the laws which were enacted by a king of Babylonia in the third millennium B C whose rule extended over the whole of Mesopotamia from the mouths of the rivers Tigris and Euphrates to the Mediterranean coast we must regard it with interest But when we reflect that the ancient Hebrew tradition ascribed the migration of Abraham from Ur of the Chaldees to this very period and clearly means to represent their tribe father as triumphing over this very same Hammurabi Amraphel Gen xiv 1 we can hardly doubt that these very laws were part of that tradition At any rate they must have served to mould and fix the ideas of right throughout that great empire and so form the state of society in Canaan when five hundred years later the Hebrews began to dominate that region [**Hammurabi**](#) John Bankston,2019-09-04 In the United States laws apply to everyone they are written down and they are not easily changed It was not always like this Over 3 000 years ago a Middle Eastern king wanted to rule fairly He had the laws of his kingdom written in stone and then he shared the laws with his people His name was Hammurabi and he ruled Babylon where the country of Iraq is today for over forty years Although he expanded his country and won many wars today he is best remembered for his code of laws The way laws are written in the United States owes so much to Hammurabi that pictures of him can be seen in the House of Representatives
