Reshaping STEM Education: Strategies for Curriculum Decolonization and Institutional Transformation Zahid Pranjol, Alia Amir, 2025-11-13 The field of STEM higher education is currently grappling with the imperative need for transformative discourse to address its historical epistemological and colonial underpinnings. Despite significant advancements in STEM disciplines, there remains a critical gap in inclusivity and equity within higher educational institutes. Recent studies have highlighted the persistent colonial structures that shape STEM education, often marginalizing diverse voices and perspectives. Efforts to decolonize STEM education are gaining momentum, yet there is a pressing need for comprehensive research and reflective insights to uproot these entrenched structures. This research topic aims to address these gaps by fostering a robust dialogue that transcends traditional boundaries, promoting a deeper understanding of the challenges and opportunities in reshaping STEM education through decolonial lenses. This research topic aims to provide a scholarly platform for researchers, educators, and practitioners to contribute groundbreaking research and reflective insights on decolonizing STEM higher education. The primary goal is to facilitate a robust dialogue that transcends traditional boundaries, fostering a deeper understanding of the challenges and opportunities in reshaping STEM education through decolonial lenses.

Strategic Thinking and Writing Michael Edmondson, 2018-12-06 In today's hyper-connected dynamic and ever-changing global marketplace, storytelling is the new strategic imperative for organizations that want to achieve and sustain growth. The power of narrative, however, is built upon the foundation of strategic thinking and writing. As technology has democratized the power to share stories with the world, succeeding in today's age of collaborative commerce demands that leaders on all levels develop and enhance the business competency of storytelling, built on strategic thinking and writing, in order to drive customer engagement, enhance business performance, and remain relevant. Perhaps nowhere is the evidence of storytelling more prevalent than Amazon. In his 2018 annual letter, Amazon founder and CEO Jeff Bezos repeated his rule that PowerPoint is banned in executive meetings. Bezos replaced PowerPoint slides with a six-page narrative that executives prepare. The start of each meeting involves attendees reading the six-page narrative for 30 minutes, followed by a discussion. Writing the six-page memo requires research time and multiple revisions. The six-page memo also requires one to think and write strategically. That's where this publication can help. Part one consists of three chapters that focus on examining the various definitions associated with thinking and the process of strategic thinking. Part two shifts the attention towards strategic writing and provides the reader with a step-by-step guide on how to create a clear, concise, and compelling six-page memo.
