**Improving Primary Mathematics Education, Teaching and Learning** Mellony Graven, Hamsa Venkat, 2017-01-19  
This book focuses on how to improve the teaching and learning of primary level mathematics education within resource constrained contexts. It builds on two large numeracy projects within South Africa which speak to broader global concerns and highlight how research and development not only enables one to meet ethical imperatives but also explore how further interventions can be developed. Teacher and research communities must work together to create mutually beneficial relationships and establish a cohesive understanding of the requirements of primary mathematics education.

**Ethics and Law for School Psychologists** Susan Jacob, Dawn M. Decker, Elizabeth Timmerman Lugg, 2016-07-12  
Ethics and Law for School Psychologists is the single best source of authoritative information on the ethical and legal issues school psychologists face every day. Designed specifically to meet the unique needs of psychologists in school settings, this book includes the most up to date standards and requirements while providing an introduction to ethical codes, ethical decision making, and the legal underpinnings that protect the rights of students and their parents. This new seventh edition has been extensively updated with the latest research and changes to the law with an increased focus on ethical legal considerations associated with the use of digital technologies. Coverage includes new case law on privacy rights, electronic record keeping, the 2014 Standards for Educational and Psychological Testing, digital assessment platforms, the latest interpretations of the Individuals with Disabilities Education Act, and more. Ethics texts for counseling and psychology are plentiful and often excellent, but this book is the only reference that speaks directly to the concerns and issues specific to psychologists in school settings. Case vignettes, end of chapter questions, and discussion topics facilitate deeper insight and learning while updated instructor resources bring this key reference right into the classroom. Keeping up with the latest research and legal issues is a familiar part of a psychologist's duties, but a practice centered on children in an educational setting makes it both critical and more complex. Ethics and Law for School Psychologists provides a central resource for staying up to date and delivering ethically and legally sound services within a school setting.

**Continuing Professional Teacher Development in Sub-Saharan Africa** Yusuf Sayed, 2018-03-22  
Continuing Professional Teacher Development in Sub-Saharan Africa explores the prospects that the on going continuous professional development (CPD) of teachers working in schools offers for meaningful change, particularly towards improving the quality of educational provision for the majority of the continent's children. By reflecting on teacher professional development efforts and their place in broader education reforms, the book highlights the challenges of teacher CPD in these education contexts, contexts strongly shaped by endemic poverty, underdevelopment, and social upheaval. The collection draws together examples of innovation and resilience and the valuing of teachers as critical role players enabled and empowered through their on going development as education professionals. Drawing together a wealth of experience, the volume identifies the policy and research implications for the future of CPD across the continent, providing

important lessons that can be integrated into a post 2015 development agenda for Africa      Annual Report Mpumalanga (South Africa). Department of Education,2014      *Preparation and Development of School Leaders in Africa* Pontso Moorosi,Tony Bush,2019-11-28 The book is based on African research and reviews on school leadership preparation and development taking stock of where the field is in this geographical region and what lies ahead The exclusive focus on sub Saharan African countries is driven by the desire to foreground African experiences highlighting gaps and asking critical questions about contextually relevant models of leadership that can drive towards improved educational outcomes for African children The countries explored include Botswana Cameroon Ghana Kenya Lesotho Namibia Nigeria South Africa and Tanzania Written by a collective of seasoned researchers with extensive experience in the field and on the continent this volume is timely as the field is in need of serious political attention For these reasons the book is an important resource for policy makers school leaders and other practitioners students educators of school leadership preparation programmes as well as researchers in the field on the continent and the diaspora      Annual Performance Plan Mpumalanga (South Africa).
