Mathematics for Life and Work A Comparative Perspective on Mathematics to Inform Upper Secondary Reform in England OECD, 2024-11-05

Engagement and performance in mathematics at the upper secondary level have been the concern of successive governments in England. This report was commissioned as part of the country's policy reflections for transforming how maths is viewed and experienced in England. It also examines factors shaping maths education, including the expectations set by curricula, student pathways, cultural perceptions, and the needs of the labour market and higher education.

Mathematics 2 Kunihiro Kodaira, See the blurb for Japanese Grade 10
2029 Economic Crisis and Civil War in South Africa The Messenger, 2014-07-17 The book analyses the current problems in South Africa. Many people are seeing that unemployment and the plight of the masses will reach the point of no return. The gradual decline of the economy is due to various factors but is exacerbated by corruption and lack of responsibility and accountability. South Africa has reached a 50-year low in productivity due to affirmative action BEE and the perception of life owes me. The current war between management and labour for higher wages will continue. The threat of retrenchments will become a reality. All the gold mines will follow. The falling gold price predicts this. All of this leads to only one thing: our mutual enemy, unemployment.
