**The Art of Uncertainty** David Spiegelhalter,2025-03-04 Named a Best Book of the Year by Forbes and The Economist From our greatest living statistical communicator Tim Harford comes an invaluable data driven guide for understanding and learning to embrace risk and uncertainty in our daily lives How dangerous is our diet How much of sports falls into the realm of luck When authorities categorize a given event as highly likely how likely is that really Whether we're trying to decide if the benefits of a new medication are worth the chance of side effects or if artificial intelligence truly threatens humanity our lives are riddled with uncertainties both everyday and existential yet it can be difficult to know how to properly weigh all those unknowns Luckily for us renowned statistician David Spiegelhalter has spent his career dissecting data to resolve the apparently random and decode the many decisions we face with imperfect information In The Art of Uncertainty he shows how we can become better at dealing with what we don't know to make smarter choices in a world so full of puzzling variables In lucid lively prose Spiegelhalter guides us through the principles of probability illustrating how they can help us think more analytically about everything from medical advice to sports to climate change forecasts He demonstrates how taking a mathematical approach to phenomena we might otherwise attribute to fate or luck can help us sort hidden patterns from mere coincidences better evaluate cause and effect and predict what's likely to happen in the future Along the way we learn how a misinterpretation of a probability contributed to the infamous Bay of Pigs fiasco why a ship twice the size of the Titanic sank without a trace and why we can be so confident that no two properly shuffled decks of cards have ever been in the same order Sparkling with wit and fascinating real world examples this is an essential guide to navigating uncertainty while also retaining the humility to admit what we don't or simply cannot know **Revise Edexcel GCSE (9-1)**

**Know it All, Find it Fast for Youth Librarians and Teachers** Christinea Donnelly, 2012 A brand new version of the best selling enquiry desk reference text Know it All Find it Fast specifically designed for those working with children and young people in schools, public libraries and at home. Including an invaluable overview of the education system and the school curriculum as well as a comprehensive listing of useful resources by topic this A-Z covers school subjects from science and maths to reading and literacy and more general themes such as children's health, wellbeing and hobbies. Each topic is broken down into useful sections that will help to guide your response. Typical questions outline common queries such as 'Have you got any information about volcanoes?' Considerations provides useful hints and tips (e.g. Geography) now encompasses not only physical and human geography but also environmental geography, social geography, geology and geopolitics. 'Where to look' lists relevant printed, digital and online resources with useful annotations explaining their scope and strengths. Readership: This is the must have quick reference tool arming librarians and teachers with the knowledge to deal with any queries thrown at them from children and young people as well as their parents and caregivers. It will also be a handy reference for parents and anyone working with children and young people in other organizations such as homework clubs and youth workers. [The Guardian Index](#), 2002 **Know it All, Find it Fast** Robert John Duckett, Peter Walker, Christinea Donnelly, 2002 Answering questions from its users is one of the most important services undertaken by a library's staff. Yet it is one of the most difficult least understood and most neglected of subjects. This book is a guide for library staff to check where to go to quickly find the answers they need. It is designed as a first point of reference for library staff to be depended

on if they are unfamiliar with the subject of an enquiry or wish to find out more and is arranged in an easily searchable A Z list of around 250 of the subject areas most frequently handled at enquiry desks Each subject entry lists information sources and where to locate them including printed and electronic sources relevant websites and other contacts for referral purposes Entries also include notes on typical questions asked and how to tackle them including supplementary questions you may need to ask enquirers to find out what they really want
