Journal Shared Decision Making:

Shared Decision Making in Health Care Glyn Elwyn, Adrian Edwards, Rachel Thompson, 2016-07-22 Over the past decade health care systems around the world have placed increasing importance on the relationship between patient choice and clinical decision making In the years since the publication of the second edition of Shared Decision Making in Health Care there have been significant new developments in the field most notably in the US where Obamacare puts shared decision making SDM at the centre of the 2009 Affordable Care Act This new edition explores shared decision making by examining from practical and theoretical perspectives what should comprise an effective decision making process It also looks at the benefits and potential difficulties that arise when patients and clinicians share health care decisions Written by leading experts from around the world and utilizing high quality evidence the book provides an up to date reference with real word context to the topics discussed and in depth coverage of the practicalities of implementing and teaching SDM The breadth of information in Shared Decision Making in Health Care makes it an essential resource for policy makers and health care workers As health care systems adapt to increasingly collaborative patient clinician care frameworks this will also prove a useful guide to SDM for clinicians of all disciplines **Journal of the National Cancer Institute** ,1990 **Shared Decision-Making in Mental Health Care (Practice, Research, and Future Directions)** U.S. Department of Health and Human Services, 2019-11-23 This report is intended to provide a general overview of SDM and the available research on its effects in both general and mental health care It includes recommendations from the participants of the SDM meeting Participant perspectives are included throughout the report as well as in a section specifically devoted to learnings from the meeting A resource list to assist those seeking further information about the concept and practice of SDM is included in Appendix A **The Oxford Handbook of Health Communication, Behavior Change, and Treatment Adherence** Leslie R. Martin, M. Robin DiMatteo, 2014 This edited volume brings together top notch scientists and practitioners to illustrate intersections between health communication behavior change and treatment adherence **Patient Safety Handbook** Barbara J. Youngberg, 2013 In the current climate of managed care tight cost controls limited resources and the growing demand for health care services conditions for medical errors are ripe Nearly 100 000 people die each year from medical errors and tens of thousands more are injured This comprehensive handbook on patient safety reflects the goals of many in the health care industry to advance the reliability of healthcare systems worldwide With contributions from prominent thought leaders in the field this thoroughly revised Second Edition of The Patient Safety Handbook looks at all the recent changes in the industry and offers practical guidance on implementing systems and processes to improve outcomes and advance patient safety The book covers the full spectrum of patient safety and risk reduction from the fundamentals of the science of safety through a thorough discussion of operational issues and the application of the principles of research Real life case studies from renowned health care organizations and their leadership help the reader understand the practical

application of the strategies presented Key Features Offers contributions from prominent thought leaders in both academia and the profession Examines the newest scientific advances in the science of safety Includes real life case studies from renowned health care organizations

Handbook of Health Decision Science Michael A. Diefenbach, Suzanne Miller-Halegoua, Deborah J. Bowen, 2016-09-26 This comprehensive reference delves into the complex process of medical decision making both the nuts and bolts access and insurance issues that guide choices and the cognitive and affective factors that can make patients decide against their best interests Wide ranging coverage offers a robust evidence base for understanding decision making across the lifespan among family members in the context of evolving healthcare systems and in the face of life changing diagnosis The section on applied decision making reviews the effectiveness of decision making tools in healthcare featuring real world examples and guidelines for tailored communications with patients Throughout contributors spotlight the practical importance of the field and the pressing need to strengthen health decision making skills on both sides of the clinician client dyad Among the Handbook s topics From laboratory to clinic and back connecting neuroeconomic and clinical measures of decision making dysfunctions Strategies to promote the maintenance of behavior change moving from theoretical principles to practices Shared decision making and the patient provider relationship Overcoming the many pitfalls of communicating risk Evidence based medicine and decision making policy The internet social media and health decision making The Handbook of Health Decision Science will interest a wide span of professionals among them health and clinical psychologists behavioral researchers health policymakers and sociologists

Current Index to Journals in Education ,1998-04 **The Canadian Administrator** ,1988-10 **Case Studies on Educational Administration**

Theodore J. Kowalski, 2008 This book immerses prospective administrators in the realities of practice Problem solving and decision making skills are addressed through the use of open ended case studies Effective practice in school administration requires both leadership and management In today s reform minded information based society practitioners must be able to frame problems correctly and then make effective decisions to ameliorate them As leaders district and school level administrators are expected to focus on what should be done to improve schools as managers they are expected to focus on how to do things successfully The cases in this book are designed to make students think about common problems of practice by encouraging them to bridge theory and practice More precisely the cases are intended to hone four essential practitioner skills 1 The ability to frame a problem correctly 2 The ability to develop and evaluate alternative solutions to a defined problem 3 The ability to use data and other facts to counter the influence of politics and emotion in decision making 4 The ability to grow professionally by engaging in reflective practice

Working Paper Series ,1998 **RIBA Journal** ,2006

Impact of a Decision Aid Videotape on Young Women's Attitudes and Knowledge about Hormone Replacement Therapy

David Neal Kerner,1998 The application of medical treatments requires informed consent However lack of knowledge and information processing limitations may limit the ability to make informed decisions Decision aids address these issues and may increase patients ability to make informed choices However little research has examined decision aid effectiveness One difficult decision faced by many women is whether to use hormone replacement therapy HRT which is associated with both potential risks and potential benefits A tool designed to enhance HRT decision making could benefit many women This paper presents the evaluation of an HRT videotape decision aid The paper s primary goals are to 1 examine the impact of the decision aid on treatment relevant knowledge perceived knowledge and perceived ability to make an informed choice about HRT 2 determine the impact of the decision aid on HRT attitude 3 examine whether the decision aid is perceived as useful and 4 evaluate the influence of specific decision aid components on these issues There were three phases to this project First several focus groups were convened to gain better understanding of women s knowledge and attitudes about HRT Next two pilot studies examined how altering the presentation of HRT type information affects preference for hypothetical treatments The third phase involved the evaluation of an HRT decision aid videotape Female college students n 153 were randomly assigned to one of four conditions 1 complete HRT video 2 HRT video with patient testimonials excluded 3 HRT video with decision aid data excluded or 4 a control non HRT video All subjects completed pre and post video questionnaires examining HRT knowledge and attitudes The HRT video was associated with increases in knowledge perceived knowledge and perceived ability to make an informed HRT decision Actual knowledge and perceived knowledge were not related and perceived ability was predicted by perceived knowledge rather than actual knowledge The video was perceived as a useful tool for HRT decision making although it did not increase positive attitude towards HRT Results were similar for each version of the video except that the version without patient testimonials was perceived more negatively Implications of these findings are discussed

National Forum of Educational Administration and Supervision Journal ,1994 Group Work in the Helping Professions David G. Zimpfer,1984 **Proceedings of the ... Conference** New Zealand Geographical Society. Conference,1997 **Educational and Psychological Research** ,1982 *School Leadership and Administration* Petra E. Snowden,Richard A. Gorton,1998 The text is designed to help prospective and experienced principals administrators and supervisors increase their knowledge and skills through concepts case studies and simulations Two parts makeup this text Part I presents important theoretical concepts and research findings that if adequately understood and appropriately applied can improve educators problem solving and leadership effectiveness Problems and issues illustrated in case studies and simulations are presented in Part II Nevertheless it is the problem dimension of human behaviour in school administration that should be studied and it is here that preparation and in service training programs need to be directed if prospective and experienced administrators and supervisors are to be equipped with the skills needed for the future as well as for the present

Changing Urban Education Clarence Nathan Stone,1998 With critical issues like desegregation and funding facing our

schools dissatisfaction with public education has reached a new high Teachers decry inadequate resources while critics claim educators are more concerned with job security than effective teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why Changing Urban Education confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation s leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and the concentration of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved Changing Urban Education makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future
