February March Geography Paper 24:

SIPRE Report , *The Journal of Education for Ontario* ... Egerton Ryerson, John George Hodgins, Adam Crooks, 1854

The Walking Dead at Saqqara Lara Weiss, 2022-06-21 Funerary rituals and the cult of the dead are classics of research in religious studies especially for ancient Egypt Still we know relatively little about how people interacted in daily life at the city of Memphis and its Saqqara necropolis in the late second millennium BCE By focussing on lived ancient religion we can see that the social and religious strategies employed by the individuals at Saqqara are not just means on the way to religious post mortem salvation nor is their self representation simply intended to manifest social status On the contrary the religious practices at Saqqara show in their complex spatiality a wide spectrum of options to configure sociality before and after one's own death The analytical distinction between religion and other forms of human practices and sociality illuminates the range of cultural practices and how people selected modified or even avoided certain religious practices As a result pre funerary funerary and practices of the subsequent mortuary cults in close connection with religious practices directed towards other ancestors and deities allow the formation of imagined and functioning reminiscence clusters as central social groups at Saqqara creating a heuristic model applicable also to other contexts Sessional Papers British Columbia, 1903
