These methods are brought to life through authentically relevant examples enabled through easy to use statistical software and are accessible at very early stages of a course. The program includes the more traditional methods like t tests, chi square, texts etc but only after students have developed a strong intuitive understanding of inference through randomization methods. The focus throughout is on data analysis and the primary goal is to enable students to effectively collect data, analyze data and interpret conclusions drawn from data. The program is driven by real data and real applications.
