SCIENCE BUDDIES

Writing a Research Paper for Your Science Fair Project

Key Info

- As you do your research, follow your background research plan and take notes from your sources of information. These notes will help you write a better summary. More information about the background research plan can be found on the Project Guide page at www.sciencebuddies.org.

- The purpose of your **research paper** is to give you the information to understand why your experiment turns out the way it does. The research paper should include:
  - The history of similar experiments or inventions
  - Definitions of all important words and concepts that describe your experiment
  - Answers to all your background research plan questions
  - Mathematical formulas, if any, that you will need to describe the results of your experiment

- For every fact or picture in your research paper you should follow it with a citation telling the reader where you found the information. A citation is just the name of the author and the date of the publication placed in parentheses like this: (Author, date). This is called a reference citation when using APA format and parenthetical reference when using the MLA format. Its purpose is to document a source briefly, clearly, and accurately.

- If you copy text from one of your sources, then place it in quotation marks in addition to following it with a citation. Be sure you understand and avoid plagiarism! Do not copy another person's work and call it your own. Always give credit where credit is due!

- Most teachers want a research paper to have these sections, in order:
  - Title page (with the title of your project, your name, and the date)
  - Your report
  - Bibliography
  - Check with your teacher for additional requirements, such as page numbers and a table of contents

Overview

Year after year, students find that the report called the research paper is the part of the science fair project where they learn the most. So, take it from those who preceded you, the research paper you are preparing to write is super valuable.

What Is a Research Paper?

The short answer is that the research paper is a report summarizing the answers to the research questions you generated in your background research plan. It's a review of the relevant publications (books, magazines, websites) discussing the topic you want to investigate.

The long answer is that the research paper summarizes the theory behind your experiment. Science fair judges like to see that you understand why your experiment turns out the way it does. You do library and Internet research so that you can make a prediction of what will occur in your experiment, and then whether that prediction is right or wrong, you will have the knowledge to understand what caused the behavior you observed.

Example Of Science Fair Research Paper

Querida Lee Pearce,Francesca Rusackas

Example Of Science Fair Research Paper:

Science Fair Projects For Dummies Maxine Levaren,2011-05-04 Uh oh now you ve gone and done it you volunteered to do a science fair project Don t sweat it presenting at a science fair can be a lot of fun Just remember the science fair is for your benefit It s your chance to show that you understand the scientific method and how to apply it Also it s an opportunity for you to delve more deeply into a topic you re interested in Quite a few scientists including a few Nobel laureates claim that they had their first major breakthrough while researching a science fair project And besides a good science fair project can open a lot of doors academically and professionally but you already knew that Stuck on what to do for your science project This easy to follow guide is chock full of more than 50 fun ideas and experiments in everything from astronomy to zoology Your ultimate guide to creating crowd pleasing displays it shows you everything you need to know to Choose the best project idea for you Make sure your project idea is safe affordable and doable Research take notes and organize your facts Write a clear informative research paper Design and execute your projects Ace the presentation and wow the judges Science fair guru Maxine Levaren gives walks you step by step through every phase of choosing designing assembling and presenting a blue ribbon science fair project She gives you the inside scoop on what the judges are really looking for and coaches you on all the dos and don ts of science fairs And she arms you with in depth coverage of more than 50 winning projects including Projects involving experiments in virtually every scientific disciplines Computer projects that develop programs to solve a particular problem or analyze system performance Engineering projects that design and build new devices or test existing devices to compare and analyze performance Research projects involving data collection and mathematical analysis of results Your complete guide to doing memorable science projects and having fun in the process Science Fair Projects For Dummies is a science fair survival guide for budding scientists at every grade level   **The Complete Workbook for Science Fair Projects** Julianne Blair Bochinski,2004-11-29 Your personal coach and game plan for creating a unique and award winning science fair project Developing a science fair project from the ground up can be a daunting task and today s science fairs are more competitive than ever before The Complete Workbook for Science Fair Projects takes you step by step through the entire process of brainstorming finding completing and submitting an award winning science fair project of your very own The special features of this easy to use interactive workbook include Complete instructions and fun meaningful exercises to help you develop a science fair project idea from scratchExpert advice on choosing and researching a topic finding a mentor conducting an experiment analyzing your findings putting together a winning display and much moreInspiring stories of real projects that show how students solved particular problems This ingenious guide also helps you prepare to deliver a top notch oral presentation and answer questions from science fair judges Plus you ll find sample project journal worksheets a handy list of scientific supply companies and lots of space to record your thoughts and ideas as you work on your project Today s exciting world of science fairs and contests offers many great opportunities With The Complete Workbook for

Science Fair Projects you ll learn to think like a scientist and create a more effective impressive science fair project opening the door for an amazing science journey **Science Fair Projects For Dummies** Maxine Levaren,2002-11-29 Uh oh now you ve gone and done it you volunteered to do a science fair project Don t sweat it presenting at a science fair can be a lot of fun Just remember the science fair is for your benefit It s your chance to show that you understand the scientific method and how to apply it Also it s an opportunity for you to delve more deeply into a topic you re interested in Quite a few scientists including a few Nobel laureates claim that they had their first major breakthrough while researching a science fair project And besides a good science fair project can open a lot of doors academically and professionally but you already knew that Stuck on what to do for your science project This easy to follow guide is chock full of more than 50 fun ideas and experiments in everything from astronomy to zoology Your ultimate guide to creating crowd pleasing displays it shows you everything you need to know to Choose the best project idea for you Make sure your project idea is safe affordable and doable Research take notes and organize your facts Write a clear informative research paper Design and execute your projects Ace the presentation and wow the judges Science fair guru Maxine Levaren gives walks you step by step through every phase of choosing designing assembling and presenting a blue ribbon science fair project She gives you the inside scoop on what the judges are really looking for and coaches you on all the dos and don ts of science fairs And she arms you with in depth coverage of more than 50 winning projects including Projects involving experiments in virtually every scientific disciplines Computer projects that develop programs to solve a particular problem or analyze system performance Engineering projects that design and build new devices or test existing devices to compare and analyze performance Research projects involving data collection and mathematical analysis of results Your complete guide to doing memorable science projects and having fun in the process Science Fair Projects For Dummies is a science fair survival guide for budding scientists at every grade level

So You Have to Do a Science Fair Project Joyce Henderson,Heather Tomasello,2002-07-22 pick a project you ll enjoy create a great experiment organize your data design a winning backboard and more Your all in one resource for science fair success Gearing up for your first science fair project Looking for the perfect science fair survival guide Well now your search is over So You Have to Do a Science Fair Project written by an experienced science fair judge and an international science fair winner walks you through the science fair process one step at a time Filled with lots of solid practical advice and troubleshooting tips this easy to use handbook covers The basics of the scientific method How to find a good topic How to do thorough research How to create a successful experiment How to organize your data And much more There are also lots of helpful suggestions for polishing your final presentation including putting the finishing touches on your display dressing to impress on science fair day and knowing how to talk with the judges Whether you re a first time participant or a science student looking to excel you ll find yourself turning to this invaluable resource again and again for years to come **The Complete Handbook of Science Fair Projects** Julianne Blair Bochinski,2003-11-21 Harried parents or teachers seeking
