Military Skills ,1985 Bureaucratic Opposition Deena Weinstein,2013-10-22 Bureaucratic Opposition Challenging Abuses at the Workplace focuses on bureaucratic oppositions that reveal the informal dimensions of behavior within bureaucracies This book is an attempt to show that contemporary bureaucratic organizations are not only administrative entities but are also political structures in the sense that power conflict and domination are normal within them This text is divided into five chapters Chapter 1 outlines the myth of neutral administration and proposes the alternative political interpretation of organizations The grounds or good reasons for oppositions and their normative justifications are systematically detailed in Chapter 2 The third and fourth chapters discuss the empirical dimension detailing the barriers that oppositions confront in getting underway and the strategies that they employ once they have been initiated The last chapter analyzes some of the responses to oppositions by the official hierarchy and some of the policies that have been proposed to eliminate the abuses uncovered by dissidents This publication is a good reference for students and specialists interested in bureaucratic oppositions **Ali** Jonathan Eig,2017 Based on more than 500 interviews including Muhammad Ali s closest associates and enhanced by access to thousands of pages of newly released FBI records this is a thrilling story of a man who became one of the great figures of the twentieth century **Sun Tzu and the Art of Medieval Japanese Warfare** Roald Knutsen,2021-11-01 For the first time this study examines in depth how the medieval Japanese masters of Heiho the Art of War sought to interpret illustrate and transmit the principles of China s time honoured military strategist Sun Tzu during possibly the most turbulent period of Japanese history the war torn Muromachi period c 1350 1575 In these two centuries a number of gifted warriors steeped in the teachings of Sun Tzu and the Chinese Military Classics developed their own concepts of the arts of warfare expressed in personal combat to heights of formidable effectiveness Rather than consider the weaknesses and strengths of the medieval military command structures the author focuses instead on certain basic strategies still to be found in the upper levels of these individual masters teachings some of which have fortunately survived the five hundred or more years that have elapsed since these strategists passed away Sun Tzu s lasting legacy was encapsulated in one simple statement All warfare is based on deception This volume supported by a sixteen page Plate Section demonstrates how and from where some of these master swordsmen derived their unique understanding of these ancient teachings
