Higher Education ,2023-11-02 COVID wrought havoc on the world's economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on Perils and Promises The State of Online Education Goals and Challenges of Online Learning and Innovations in the Age of COVID It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic

Knowledge remains timely in education The need for academics to contemplate its relevance worth use and everything in between deems a continuous intellectual project rather than a conundrum to be solved This book takes the South African context by the horns as it challenges the often dormant and traditionalist ways in which higher education spaces see knowledge Through original research and the voices of academics and students this book argues for repurposing knowledge generation knowledge sharing and critical pedagogy so that more inclusive teaching and learning environments can be both imagined and sustained The contentious tensionalities that this creates for LoLT and SoTL in particular are unlocked so as to trouble the South African higher education landscape with the intent to proffer alternative pathways for a knowledge beyond colour lines Prof Shan Simmonds PhD NWU This edited volume bristles with fresh scholarly approaches and insights of an emergent generation of engaged scholars grappling with the issues and problems of higher education in South Africa The issues dealt with here are varied and encompassing They are treated with intellectual delicacy and probing sensitivity articulacy informed data and bold conclusions They serve well Prof Kwesi Kwaa Prah Emeritus Professor of Sociology University of the Western Cape Founder of the Centre for Advanced Studies of African Society **Rural Transitions to Higher Education in South Africa** Sue Timmis, Thea de Wet, Kibashini Naidoo, Sheila Trahar, Lisa Lucas, Emmanuel Mfanafuthi Mgqwashu, Patricia Muhuro, Gina Wisker, 2021-09-14 This unique and timely book focuses on research conducted

into the experiences of students from rural backgrounds in South Africa foregrounding decolonial perspectives on their negotiation of access and transitions to higher education. This book highlights not only the challenges of coming from a rural background against the historical backdrop of apartheid and ongoing colonialism but also shows the immense assets that students from rural areas bring into higher education. Through detailed narratives created by student co-researchers the book charts early experiences in rural communities, negotiations of transitions to university and in many cases to urban life and students' subsequent journeys through higher education spaces and curricula. The book will be of significant interest and value to those engaged in rurality research across diverse settings those interested in the South African higher education context and higher education more widely. Its innovative participatory methodology will be invaluable to researchers seeking to conduct collaborative research that draws on decolonising approaches.

**The Law of South Africa** ,2003 *Student Loan Schemes* ,2009 *Student Politics in Africa* Luescher, Thierry

M., Klemencic, Manja, 2016-05-12 The second volume of the African Higher Education Dynamics Series brings together the research of an international network of higher education scholars with interest in higher education and student politics in Africa. Most authors are early career academics who teach and conduct research in universities across the continent and who came together for a research project and related workshops and a symposium on student representation in African higher education governance. The book includes theoretical chapters on student organising, student activism and representation chapters on historical and current developments in student politics in Anglophone and Francophone Africa and in-depth case studies on student representation and activism in a cross section of universities and countries. The book provides a unique resource for academics, university leaders and student affairs professionals as well as student leaders and policy makers in Africa and elsewhere.
