An Improved Sabre Exercise - A Historical Military Article Containing Instructions in Fencing for Mounted and Dismounted Service H. R. Hersherberger, 2016-09-12 This antique volume contains a antiquarian article on military sabre exercises with instructions for fencing on horseback and on foot This fascinating article was originally published for the use of military personnel and instructors and offers an interesting insight into the martial training of soldiers before guns and mechanisation changed the face of war This text will be of much value to the discerning military or history enthusiast and makes for a great addition to collections of allied literature Many antique texts such as this are becoming increasingly rare and expensive and it is with this in mind that we are proudly republishing this book now in an affordable modern edition for the enjoyment and edification of those interested

every soldier could be armed with a missile weapon as well as one that could be used for close combat The only disadvantage was that the musket could not be loaded or fired while the plug bayonet was in place The socket bayonet solved this problem and the musket bayonet combination became the universal infantry weapon from c 1700 to c 1870 The advent of shorter rifled firearms saw the attachment of short swords to rifle barrels Their longer blades still gave the infantryman the reach that contemporaries believed he needed to fend off cavalry attacks The perfection of the small bore magazine rifle in the 1890s saw the bayonet lose its tactical importance becoming smaller and more knife like a trend that continued in the world wars When assault rifles predominated from the 1950s onwards the bayonet became a weapon of last resort Its potential usefulness continued to be recognized but its blade was often combined with an item with some additional function most notably a wire cutter Ultimately for all its fearsome reputation as a visceral close quarter fighting weapon the bayonet s greatest impact was actually as a psychological weapon Featuring full colour artwork as well as archive and close up photographs this is the absorbing story of the complementary weapon to every soldier s firearm from the army of Louis XIV to modern day forces in all global theatres of conflict Illustrated Catalog Culver Military Academy,1906 **Fencing Manual 1877** Chris Slee,Ministry of War,2017-12-14 The Fencing Manual 1877 is at once the last of the practical military manuals of swordsmanship and the first of the handbooks of sports fencing Teaching the swordsmanship is describes was made compulsory for all arms in 1877 and it was in continual use for thirty years until its replacement a thoroughly modern sports fencing manual was introduced in 1908 During this time fencing lost its relevance to the military context and became solely a sporting endeavour This book stands as the gateway between the old and the new styles of handling both weapons
