Military Skills Development System 2015 2016:

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil military relations of countries around the world.

The Islamic State Ondrej Filipec, 2020-03-10 The Islamic State analyzes the transformation of ISIS Daesh from an underground insurgent organization to a quasi state entity. It traces the genesis and evolution of what may be interpreted as a revolutionary war aimed at the creation and expansion of a new society and world order in the ruins of Syria and Iraq. This book analyzes the regime's totalitarian features including structure, ideology, propaganda and violence. Examines its ideology with a focus on radical Islamism and Salafi jihadism. Studies the economics behind its continued existence and explores the attitude of key state and non state actors especially Russia, USA and the Global Coalition towards Daesh. An indispensable guide to the study of modern terrorism, this book will be of great interest to students and researchers of Middle East studies, terrorism with a focus on ISIS, military and strategic studies, politics and international relations as well as general readers.

Egypt Robert Springborg, 2017-09-18 Egypt is one of the few great empires of antiquity that exists today as a nation state. Despite its extraordinary record of national endurance, the pressures to which Egypt currently is subjected and which are bound to intensify are already straining the ties that hold its political community together while rendering ever more difficult the task of governing it. In this timely book, leading expert on Egyptian affairs Robert Springborg explains how a country with such a long and impressive history has now arrived at this parlous condition. As Egyptians become steadily more divided by class, religion, region, ethnicity, gender and contrasting views of how, by whom and for what purposes they should be governed, so their rulers become ever more fearful, repressive and unrepresentative. Caught

in a downward spiral in which poor governance is both cause and consequence Egypt is facing a future so uncertain that it could end up resembling neighboring countries that have collapsed under similar loads The Egyptian hot spot Springborg argues is destined to become steadily hotter with ominous implications for its peoples the Middle East and North Africa and the wider world
