Cold War Kitchen Ruth Oldenziel,Karin Zachmann,2011-01-21 The kitchen as political symbol and material reality in the  
cold war years Richard Nixon and Nikita Khrushchev s famous kitchen debate in 1958 involved more than the virtues of  
American appliances Both Nixon and Khrushchev recognized the political symbolism of the modern kitchen the kind of  
technological innovation represented in this everyday context spoke to the political system that produced it The kitchen  
connects the big politics of politicians and statesmen to the small politics of users and interest groups Cold War Kitchen looks  
at the kitchen as material object and symbol considering the politics and the practices of one of the most famous  
technological icons of the twentieth century Defining the kitchen as a complex technological artifact as important as  
computers cars and nuclear missiles the book examines the ways in which a range of social actors in Europe shaped the  
kitchen as both ideological construct and material practice These actors from manufacturers and modernist architects to  
housing reformers and feminists constructed and domesticated the technological innovations of the postwar kitchen The  
home became a mediation junction in which women users and others felt free to advise producers from the consumer s point  
of view In essays illustrated by striking period photographs the contributors to Cold War Kitchen consider such topics as  
Soviet consumers ambivalent responses to the American dream kitchen argued over by Nixon and Khrushchev the  
Frankfurter K che a European modernist kitchen of the interwar period and its export to Turkey when its designer fled the
