India's Intelligence Culture and Strategic Surprises Dheeraj Chaya, 2022-09-29 This book examines India's foreign intelligence culture and strategic surprises in the 20th century. The work looks at whether there is a distinct way in which India thinks about and does intelligence and by extension whether this affects the prospects of it being surprised. Drawing on a combination of archival data, secondary source information and interviews with members of the Indian security and intelligence community, the book provides a comprehensive analysis of the evolution of Indian intelligence culture from the ancient period to colonial times and subsequently the post colonial era. This evolutionary culture has played a significant role in explaining the India's foreign intelligence failure during the occurrences of strategic surprises such as the 1962 Sino Indian War and the 1999 Kargil War while it successfully prepared for surprise attacks like Operation Chenghiz Khan by Pakistan in 1971. The result is that the book argues that the strategic culture of a nation and its interplay with intelligence organisations and operations is important to understanding the conditions for intelligence failures and strategic surprises. This book will be of much interest to students of intelligence studies, strategic studies, Asian politics and International Relations. *Journal of Education & Psychology* Thekkey Kottiejath Narayana Menon, 1982
