The Life and Death of King Richard II William Shakespeare, 2024-04-05 The Life and Death of King Richard II is a historical play written by William Shakespeare believed to have been composed around 1595 The play chronicles the events surrounding the reign of King Richard II of England focusing particularly on his downfall and deposition At the beginning of the play Richard II is depicted as a young and arrogant king who believes in the divine right of kings and the absolute power of the monarchy However his rule is soon challenged by rebellious nobles including Henry Bolingbroke later King Henry IV who accuses Richard of mismanagement and tyranny As the power struggle intensifies Richard's authority begins to unravel leading to his eventual deposition and imprisonment The play explores themes of political legitimacy divine providence and the nature of kingship raising questions about the relationship between rulers and their subjects

Richard II William Shakespeare, 2015-07-29 More William Shakespeare's eBook The play spans only the last two years of Richard's life from 1398 to 1400 The first Act begins with King Richard sitting majestically on his throne in full state having been requested that he arbitrate a dispute between Thomas Mowbray and Richard's cousin Henry Bolingbroke who has accused Mowbray of squandering money given to him by Richard for the King's soldiers and of murdering his uncle the Duke of Gloucester Bolingbroke's father John of Gaunt meanwhile believes it was Richard himself who was responsible for his brother's murder After several attempts to calm both men Richard acquiesces and Bolingbroke and Mowbray challenge each other to a duel over the objections of both Richard and Gaunt The tournament scene is very formal with a long ceremonial introduction but as the combatants begin to fight Richard interrupts and sentences both to banishment from England Bolingbroke is originally sentenced to leave for ten years but Richard changes this to six years while Mowbray is banished permanently The king's decision can be seen as the first mistake in a series leading eventually to his overthrow and death since it is an error which highlights many of his character flaws displaying as it does indecisiveness both in terms of whether to allow the duel to go ahead and in terms of how long to exile Bolingbroke for abruptness Richard waits until the last possible moment to cancel the duel and arbitrariness there is no apparent reason why Bolingbroke should be allowed to return and Mowbray not In addition the decision fails to dispel the suspicions surrounding Richard's involvement in the death of the Duke of Gloucester in fact by handling the situation so high handedly and offering no coherent explanation for his reasoning Richard only manages to appear more guilty Mowbray predicts that the king will sooner or later fall at the hands of Bolingbroke John of Gaunt dies

and Richard II seizes all of his land and money. This angers the nobility who accuse Richard of wasting England's money of taking Gaunt's money belonging by rights to his son Bolingbroke to fund war in Ireland of taxing the commoners and of fining the nobles for crimes committed by their ancestors. They then help Bolingbroke secretly return to England in a plan to overthrow Richard II. There remain however subjects who continue faithful to the King among them Bushy Bagot Green and the Duke of Aumerle son of the Duke of York cousin of both Richard and Bolingbroke. When King Richard leaves England to administer the war in Ireland Bolingbroke seizes the opportunity to assemble an army and invades the north coast of England. Executing both Bushy and Green he wins over the Duke of York whom Richard has left in charge of his government in his absence. Upon Richard's return Bolingbroke not only reclaims his lands but lays claim to the very throne. Crowning himself King Henry IV he has Richard taken prisoner to the castle of Pomfret. Aumerle and others plan a rebellion against the new king but York discovers his son's treachery and reveals it to Henry who spares Aumerle as a result of the intercession of the Duchess of York while executing the other conspirators. After interpreting King Henry's living fear as a reference to the still living Richard an ambitious nobleman Exton goes to the prison and murders him. King Henry repudiates the murderer and vows to journey to Jerusalem to cleanse himself of his part in Richard's death. From Wikipedia **King Richard II** William Shakespeare, 2015-09-16.
