William A. Sikes

Mitsima Taught John How To Work It:

Brave New World (MAXNotes Literature Guides) Sharon Yunker, 2013-01-01 REA's MAXnotes for Aldous Huxley's *Brave New World* MAXnotes offer a fresh look at masterpieces of literature presented in a lively and interesting fashion. Written by literary experts who currently teach the subject, MAXnotes will enhance your understanding and enjoyment of the work. MAXnotes are designed to stimulate independent thought about the literary work by raising various issues and thought-provoking ideas and questions. MAXnotes cover the essentials of what one should know about each work, including an overall summary, character lists, an explanation and discussion of the plot, the work's historical context, illustrations to convey the mood of the work, and a biography of the author. Each chapter is individually summarized and analyzed and has study questions and answers.

The End of Meaning William A. Sikes, 2024-04-04 Towards the end of the twentieth century, books proclaiming the closing of America's mind, the collapse of her communities, and the end of her art, literature, education, and more began appearing with regularity. The underlying theme in all such works is the loss of those experiences that give our lives meaning. In *The End of Meaning: Cultural Change in America Since 1945*, readers learn to recognize these experiences, realize how prominent they were in the postwar period (c. 1945-65), understand the forces that have brought about their extraordinary decline in our families and communities, universities, and religious institutions, films, and popular music, fine arts, labor, and more, and realize the implications of this loss for our society and our humanity. In doing so, the book provides a way of thinking about a vital subject, one which, despite its enormous importance, has never been examined in a broad and systematic way capable of generating real understanding, discussion, and debate.

Literary Treks Mary Ellen Snodgrass, 2003 Offering a wealth of maps and geographic routes for 28 books, this guide illustrates how to teach with literary maps, taking students on a journey through real and imaginary terrains. Entries span a range of genres and literary formats, including novels, dramas, and diaries; each follows a book's protagonist through space and time, covering places visited, as well as historical figures, customs, cultures, and events. Geographic summaries, itemized itineraries, and detailed maps help students trace each character's journey and comprehend the geographic scale of action. As a prelude to reading, the maps can help disadvantaged readers better understand the stories and settings of a book, which will significantly enhance any student's reading experience. Instruction on marking maps with notes and arrows will help students prepare for college-level classes as they organize their work, simplify confusing elements, outline chronology, and incorporate additional reading and research.
