

**HISTORY OF SOUTHERN AFRICA: @TOO BAD.COM**

**THE LATE STONE AGE PERIOD**

The Late Stone Age was characterised by the use of bone, wood and stone tools. Tools of the Late Stone Age were digging sticks, scrappers, clubs, flakes, stone tipped arrows, hand axes and stone hammers.

**Economic activities of the Late Stone Age**

- ✓ They hunted small animals like hares and teamed up for bigger ones like kudus and impalas. They used snares to catch rabbits and they used traps catch big game like buffaloes. They also used poisoned arrows to kill animals. They extracted poison from reptiles such as snakes and from insects such as spiders and from scorpions.
- ✓ They gathered wild fruits, roots, vegetables, and insects.
- ✓ They caught fish using hooks made from bones.
- ✓ They domesticated dogs

**Social system of the Late Stone Age**

- ✓ They lived in caves.
- ✓ They were nomadic, that is they moved from one place to another in search of animals, fruits and the like.
- ✓ They worked communally.
- ✓ There was division of labour, for instance, women and children gathered while men hunted.
- ✓ They married a single wife.
- ✓ They lived and travelled in small groups.
- ✓ They had small families.

**Political organisation of the Late Stone Age**

- ✓ There was no ruling class and subject people.
- ✓ There were no states.
- ✓ There was no a centralised political system.
- ✓ They settled their disputes communally.
- ✓ They were ruled by a family head.

## **History Zjc Past Paper:**

**Education and Development in Zimbabwe** Edward Shizha, Michael T. Kariwo, 2012-01-01 The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe. It challenges scholars to think about the role of education, its funding, and the egalitarian approach to widening access to education. The nexus between education, democracy, and policy change is a complex one. The book provides an illuminating account of the constantly evolving notions of national identity, language, and citizenship from the Zimbabwean experience. The book discusses educational successes and challenges by examining the ideological effects of social, political, and economic considerations on Zimbabwe's colonial and postcolonial education. Currently, literature on current educational challenges in Zimbabwe is lacking, and there is very little published material on these ideological effects on educational development in Zimbabwe. This book is likely to be one of the first on the impact of social, political, and economic meltdown on education. The book is targeted at local and international academics and scholars of history of education and comparative education, scholars of international education and development, undergraduate and graduate students, and professors who are interested in educational development in Africa, particularly Zimbabwe. Notwithstanding, the book is a valuable resource to policy makers, educational administrators, and researchers, and the wider community. Shizha and Kariwo's book is an important and illuminating addition on the effects of social, political, and economic trajectories on education and development in Zimbabwe. It critically analyses the crucial specifics of the Zimbabwean situation by providing an in-depth discourse on education at this historical juncture. The book offers new insights that may be useful for an understanding of not only the Zimbabwean case but also education in other African countries. Rosemary Gordon, Senior Lecturer in Educational Foundations, University of Zimbabwe. Ranging in temporal scope from the colonial era and its elitist legacy through the golden era of populist universal elementary education to the disarray of contemporary socioeconomic crisis, covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching, this text provides a comprehensive, wide-ranging and yet carefully detailed account of education in Zimbabwe. This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe's education specifically but more widely to all who are interested in how the sociopolitical shapes education, how ideology, policy, international pressures, economic factors, and shifts in values collectively forge the historical and contemporary character of a country's education. Handel Kashope Wright, Professor of Education, University of British Columbia. **A**

**Conceptual History of Chinese -Isms** Ivo Spira, 2015-05-12 In *A Conceptual History of Chinese Isms*, Ivo Spira explores the linguistic and rhetorical development of Chinese isms as well as the key concept *zh y* ism itself. He argues that the introduction of this concept from Japan in the 1890s inaugurated an Age of Isms in which it served as a conceptual focus for the stereotypical categorization of people and the utopian imagination of the future. The book focuses on Chinese isms in the

formative period 1895-1925 through a close reading of key primary sources covering linguistic conceptual and rhetorical aspects of their use in ideological reasoning Spira emphasizes the combination of internal traditional and external Western and Japanese factors in the emergence of Chinese isms **Occasional Papers**, 1993 **Zimbabwe Journal of Educational Research**, 2005 **History of Geoscience** W. Mayer, R.M. Clary, L.F. Azuela, T.S. Mota, S. Wołkowicz, 2017-06-06 The study of the Earth's origin, its composition, the processes that changed and shaped it over time, and the fossils preserved in rocks have occupied enquiring minds from ancient times. The contributions in this volume trace the history of ideas and the research of scholars in a wide range of geological disciplines that have paved the way to our present-day understanding and knowledge of the physical nature of our planet and the diversity of life that inhabited it. To mark the 50th anniversary of the founding of the International Commission on the History of Geology (INHIGEO), the book features contributions that give insights into its establishment and progress. In other sections, authors reflect on the value of studying the history of the geosciences and provide accounts of early investigations in fields as diverse as tectonics, volcanology, geomorphology, vertebrate palaeontology, and petroleum geology. Other papers discuss the establishment of geological surveys, the contribution of women to geology, and biographical sketches of noted scholars in various fields of geoscience.

**Zimbabwe Books in Print**, 1995 *Zimbabwe National Bibliography*, 1990 **Annual Report of the Secretary for Education for the Year Ended ...** Zimbabwe. Ministry of Education, 1980 *The Precious Raft of History* Joan Judge, 2008 This fascinating new book strips away scholarly illusions about ruptures in China's nineteenth and early twentieth-century history and reveals how new roles for women have deep roots in a dense textual and cultural past. The illustrations are nothing short of fabulous.
