**Twenty Years of Education Transformation in Gauteng 1994 to 2014** Maringe, Felix, Prew, Martin, 2015-05-05  
Twenty Years of Education Transformation in Gauteng 1994 to 2014 An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years **Gaffney's Local Government in South Africa**, 2009

curricula The NCS by its very imposition is an example of radical curriculum change I undertook a qualitative study from Grade R teachers perspectives in order to illuminate how nine ECE teachers in Gauteng South Africa are responding to this curriculum change My findings are consistent with the four main responses discussed in the literature and on which I based my conceptual framework namely ignore resist adopt and adapt The Grade R teachers in my study viewed the NCS as developmentally inappropriate for their five year old learners Although they manifested all four responses they mainly resisted adopted or adapted curriculum change Their response could best be typified as reluctant compliance After six years of implementation ignoring it completely is no longer a realistic option In addition they either reinterpreted their traditional practices as already compliant with the NCS or they implemented formal academic activities to develop school readiness skills The Grade R teachers in my study had one outstanding characteristic in common they are passionate about their work Overall the teachers reported that the NCS has detracted from their enjoyment of their work In most cases the Grade R teachers noted that they would pursue Foundation Phase posts because of the absence of a career path for Grade R teachers Instructional leadership should be developed to support Grade R teachers to implement the NCS appropriately Once this is in place Grade R teachers need to be convinced of how the NCS could be implemented in developmentally and culturally appropriate ways and how this could benefit their learners
