## **Life Science Rhino Poaching Memo:**

The Animal Code Danny Crossman,2011 Illustrates the myriad ways in which humans exploit animals making a compelling case for people to recognise animals needs and feelings In a breakthrough concept The Animal Code sets out a clear guide for how each of us can treat animals with respect and also help our environment **Parade of Life** ,1993 AF

Press Clips ,1966-12-28 **Transdex Index** ,1994 An index to translations issued by the United States Joint Publications

Research Service JPRS *Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)* Union of International Associations,2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events

*Operation Lock and the War on Rhino Poaching* John Hanks,2015-05-08 The aggressive poaching of rhinos needs to be countered with equal aggression So argued Prince Bernhard of the Netherlands the founder president of the World Wide Fund for Nature WWF at a 1987 meeting with John Hanks conservation expert and WWF s head in Africa The result was Operation Lock a secret initiative funded by Prince Bernhard and staffed by former SAS operatives Operation Lock set up headquarters in Johannesburg and extended its reach into neighbouring states Namibia Zambia Botswana Swaziland and Mozambique Its operatives planned to train game rangers to pose as rhino horn traders in order to entrap buyers and to expose the kingpins who were driving the trade It was a controversial approach all the more because it was working within apartheid South Africa in the late 1980s When the existence of the project was finally leaked WWF denied any involvement and John Hanks took the fall In Operation Lock and the War on Rhino Poaching John Hanks finally tells the story of these explosive events from 25 years ago As a leading international authority on conservation he also deals with the scourge of rhino poaching up to the present and gives powerful and controversial criticism of some of the current policies to curb poaching

**Annuaire Des Organisations Internationales** , **Saving the Last Rhinos** Grant Fowlds,Graham Spence,2020-05-05 The remarkable story of Grant Fowlds who has dedicated his life to saving the imperiled rhinos vividly told with Graham Spence co author of the bestselling The Elephant Whisperer What would drive a man to smuggle rhino horn back into Africa at great risk to himself This is just one of the situations Fowlds has put himself in as part of his ongoing fight against poaching in order to prove a link between southern Africa and the illicit lucrative trade in rhino horn in Vietnam Shavings of rhino horn are sold as a snake oil cures but a rhino s horn has no magical medicinal properties whatsoever Yet it is for this that rhinoceroses are being killed at an escalating rate that puts the survival of the species in jeopardy This corrupt illegal war on wildlife has brought an iconic animal to the brink of extinction Growing up on a farm in the eastern Cape of South Africa Grant developed a deep love of nature turning his back on hunting to focus on saving wildlife of all kinds and the environment that sustains both them and us He is a passionate conservationist who puts himself on the front line of protecting rhinos in the wild right now against armed poachers and in the long term through his work with schoolchildren communities and policymakers Analysis of Rhino Poaching in KwaZulu-Natal, South Africa ,2011 Rhinos of the World

Mario Melletti, Bibhab Talukdar, David Balfour, 2024-11-07 This book represents the culmination of more than four years of work by many rhino experts primarily from Africa, Asia, the United States and Europe involved in rhino conservation research and management. It is one of the most comprehensive reference works ever published on the systematics, ecology, conservation status and management of all rhinoceros species. Covering all five rhino species worldwide, this volume brings together the contributions of 92 international rhino experts and provides a comprehensive overview of the current state of knowledge on the evolution, phylogeny, systematics and fossil record of rhinos. An in-depth look at the ecology and conservation status of each species with detailed chapters. A series of case studies on conservation, management, poaching, horn trade and ex situ programs. This beautifully illustrated book is an invaluable resource for researchers, wildlife managers and professionals in conservation biology, ecology and management, as well as the general public. It reveals the fascinating story of rhino evolution, the long history of human interactions with rhinos and the major threats to these iconic species.

Conservation of Species and the Endangered Rhinoceros United States. Congress. House. Committee on Science and Technology. Subcommittee on Natural Resources, Agriculture, Research, and Environment, 1987 **Killing for Profit** Julian Rademeyer, 2012-11-08 A terrifying true story of greed, corruption, depravity and ruthless criminal enterprise. On the black markets of Southeast Asia, rhino horn is worth more than gold, cocaine and heroin. This is the chilling story of a more than two-year-long investigation into a dangerous criminal underworld where merciless syndicates will stop at nothing to attain their prize. It is a tale of greed, folly and corruption, and of an increasingly desperate battle to save the rhino which has survived for more than 50 million years from extinction. Killing for Profit is a meticulous, devastating and revelatory account of one of the world's most secretive trades. It exposes poachers, gangsters, con men, mercenaries, killers, gunrunners, diplomats, government officials and other key players behind the slaughter. And it follows the bloody trail from the front lines of the rhino wars in South Africa, Zimbabwe and Mozambique to the medicine markets of Vietnam and the lair of a wildlife trafficking kingpin on the banks of the Mekong River in Laos.

**The Rhino Crash** Nick Newman, Karin Mitchell, 2020-07-21 **Ivory, Horn and Blood** Ronald Orenstein, 2013-07-25 Meticulous research, chilling facts, an important and much-needed book. Dr Jane Goodall DBE Founder, The Jane Goodall Institute. If it is understanding you seek, turn these pages. Virginia McKenna OBE Founder, The Born Free Foundation. If you care about elephants and rhinos and the poaching onslaught that threatens their extinction in the wild, this is the book for you. Ian Redmond OBE Ambassador, UN Great Apes Survival Program. As recently as ten years ago, out of every ten African elephants that died, four fell at the hands of poachers. The figure today is eight. Over sixty percent of Africa's Forest Elephants have been killed by poachers since the turn of the century. Rhinoceroses are being slaughtered throughout their ranges. The Vietnamese One-horned Rhinoceros and the Western Black rhino have become extinct in the last decade, and the Northern White Rhinoceros, the largest of them all, barely survives in captivity. This alarming book tells a crime story that takes place thousands of miles away in countries that few of us may visit. But like the trade in illegal drugs,

the traffic in elephant ivory and rhinoceros horn has far reaching implications not only for these endangered animals but also for the human victims of a world wide surge in organized crime corruption and violence Since the worldwide ban on commercial ivory trade was passed in 1989 after a decade that saw half of Africa's elephants slaughtered by poachers Ronald Orenstein has been at the heart of the fight Today a new ivory crisis has arisen fuelled by internal wars in Africa and a growing market in the Far East Seizures of smuggled ivory have shot up in the past few years Bands of militia have crossed from one side of Africa to the other slaughtering elephants with automatic weapons A market surge in Vietnam and elsewhere has led to a growing criminal onslaught against the world's rhinoceroses The situation for both elephants and rhinos is dire

**The Poacher's Moon** Richard Peirce, 2014-09-01 When wildlife conservationist Richard Peirce learnt about the targeting of three private game reserves in the Western Cape in 2011 and the butchery of some of their rhinos he embarked on a crusade to raise public awareness about the horrors of rhino poaching This is the story of Higgins and Lady two rhinos from the farm Fairy Glen that defied the odds by surviving a brutal attack Peirce keeps the reader spellbound as he recounts the series of attacks and their aftermath in chilling detail the unbearable savagery suspect police work shady characters mysterious happenings and death threats Reading like a crime thriller this account of dogged survival compassion and triumph along with desperate strategising to outwit the poaching mafia will have wide appeal Colour images throughout taken as the drama unfolded bring the subject even more vividly to life

**Rhino Poaching** Janina Naef, 2016 Rhino horn is very popular in Asia as it is a status symbol and used as medicine That is one reason why the number of these animals is decreasing continuously In 2007 13 rhinos were poached in South Africa while in 2015 the number increased to 1175 rhinos This Matura Paper deals with problems of rhino poaching in South Africa It poses into the question if it is still possible to see rhinos in the future and examines what should be done to save this species from extinction Therefore 5 theses has been stated which consist of political financial protection measures and enlightenment of local and Asian people Thereby an interview has been conducted with a conservationist in addition to research in a volunteering project in South Africa regarding these theses The results prove the problems already stated If there are no changes in one of these problems the rhino doubtfully has a future

**The Decline of the Black Rhino in Zimbabwe** Tom Milliken, Kristin Nowell, Jorgen B. Thomsen, 1993 An evaluation of Zimbabwe's Black Rhino conservation strategy in the face of continuous poaching and illegal trade in rhino horn and an assessment of future options for rhino conservation

**Conservation of Rhinos and Reauthorization of the Sikes Act** United States. Congress. House. Committee on Merchant Marine and Fisheries. Subcommittee on Environment and Natural Resources, 1994 **Africa's Threatened Rhinos** Keith Somerville, 2025-01-14 Africa's surviving rhinos are under serious threat Poaching for their horns massive extermination by sports hunters in the nineteenth and first half of the twentieth century and progressive habitat loss have all driven black and white rhino close to the edge This book considers human interactions with these magnificent and enigmatic animals charting hunting for food and

hides and then hunting for horn to meet external demand for this much coveted commodity as well as peaceful coexistence over the course of three millennia. With only two females alive in a closely protected reserve in Kenya the Northern White Rhino is on the brink of extinction. The Southern White Rhino was increasing in numbers but poaching in South Africa Botswana and Namibia has now reduced the population to fewer than 20 000 while Black Rhino are hovering around the 6 000-6 500 mark also with the danger of extirpation everywhere but in parts of eastern and southern Africa. Many books have been written on poaching and the decline of the rhino often from a very personal engaged viewpoint. This volume takes the reader into important new territory showing how human agency has led to the situation we now face. Covering the history of commercial and sporting exploitation of rhino it brings the picture up to date with an overview of contemporary conservation and anti poaching operations. This urgent work is a significant contribution to our understanding of wildlife on the African continent. Technologies for Conserving Species United States. Congress. House. Committee on Science, Space, and Technology. Subcommittee on Natural Resources, Agriculture Research, and Environment, 1988
