How To Build A Mercury Vortex Engine:

Vimana David Hatcher Childress,2013-12-18 According to early Sanskrit texts the ancients had several types of airships called vimanas Like aircraft of today vimanas were used to fly through the air from city to city to conduct aerial surveys of uncharted lands and as delivery vehicles for awesome weapons David Hatcher Childress popular Lost Cities author and star of the History Channel s long running show Ancient Aliens takes us on an astounding investigation into tales of ancient flying machines In his new book packed with photos and diagrams he consults ancient texts and modern stories and presents astonishing evidence that aircraft similar to the ones we use today were used thousands of years ago in India Sumeria China and other countries This means that these ancient civilizations had advanced metal technology electricity and the engineering knowledge of flight many thousands of years before our own era of flight technology Childress discusses ancient UFO sightings the fascinating lore of ancient flight and the technology allegedly used in the flying machines of the ancients

They All Told the Truth Richard P. Crandall,2003 A vastly improved physics model authenticates the testimony of people who claimed deep involvement with anti gravity projects Includes instructions on how to build your own device

Proof of Vedic Culture's Global Existence Stephen Knapp,2000 Vimana Aircraft of Ancient India & Atlantis David Hatcher Childress,1991 Did the ancients have the technology of flight In this incredible volume on ancient India authentic Indian texts such as the Ramayana and the Mahabharata are used to prove that ancient aircraft were in use more than four thousand years ago Included in this book is the entire Fourth Century BC manuscript Vimaanika Shastra by the ancient author Maharishi Bharadwaaaja translated into English by the Mysore Sanskrit professor G R Josyer Also included are chapters on Atlantean technology the incredible Rama Empire of India and the devastating wars that destroyed it Also an entire chapter on mercury vortex propulsion and mercury gyros the power source described in the ancient Indian texts Not to be missed by those interested in ancient civilizations or the UFO enigma Tons of illustrations Technology of the Gods David Hatcher Childress,2000 Technology of the Gods lays out the mind bending evidence that long lost civilizations had attained and even exceeded our modern level of advancement Westerners have been taught that humankind has progressed along a straight line path from the primitive past to the proficient present but the hard fast evidence literally written in stone proves that the ancients had technologies we cannot even replicate today From Bharata to India M. K. Agarwal,2012-05 The origin of world civilization can be traced to the Sindhu and Sarasvati river valleys located in present day Pakistan as early as 8 000 BC Here innovation and originality in every aspect of human endeavor from mathematics and science to art and sports flourished Yet the importance of this civilization known as the Vedic period has been deliberately downplayed Thoroughly researched and including an extensive bibliography From Bharata to India rectifies this mistake in the perspective of world history and seeks to offer a comprehensive reference source Author M K Agarwal shows how this early culture where ideation by enlightened philosopher Brahmin kings brought material and spiritual wealth that was to remain

unchallenged until the colonial era. This Vedic Hindu Buddhist legacy subsequently influenced peoples and paradigms around the globe ushering in an era of peace and plenty thousands of years before the Europeans. By using original sources in Sanskrit as well as regional literature Agarwal compares corresponding situations in other civilizations within the context of their own literary traditions and records to prove that Bharata forms the basis of world civilization. This is in direct contrast to the Greek or Arab miracle hypothesis put forth by numerous scholars. The first of two volumes in this series From Bharata to India offers a fascinating in depth glimpse into ancient India's contribution to the modern world.

Aeroplane Science

In Ancient India Harsh Dev Kumar, 2023-03-25 As it is said that the discovery of the airplane took place in the modern period but it is clear in various culture texts that even in the Vedic period and after that in the Ramayana Mahabharata period there were airplanes which were accessible to sage scientists. Scientists from different countries of Europe America and other countries have written various books after doing various researches on the aircrafts of ancient times. The evidence of the presence of airplanes in ancient times becomes clear from the various airstrips and aeroplane instruments found by the Archaeological Department. The research done in the laboratories of India and in different countries regarding the book Varhad Vimana Shastra of Maharishi Bhardwaj the most authentic of ancient times on the aircraft also proves that the events described in this book and various Sanskrit books are true. After reading various books I have presented a review study in which the Vedas Ramayana texts Mahabharata texts and other Sanskrit texts where the description of aircraft is described in brief. Along with this the review study of the books which have been written by the scientists of different countries after doing their research have also been published in it. Even in the modern period Shivkar Bapuji Talpade was the first to make an airplane for life it also describes it. Along with this the list of various research papers and various texts etc. This book will prove to be a book with ocean in the throat giving knowledge regarding ancient aircrafts. Along with this research scholars and students studying on various aircraft will also enjoy reading and will get a lot of information.

Trust Or Consequences Al Golin, 2004 This book shows what makes such strategies work and reveals the eye opening results of a survey of over 700 business professionals. The recent rash of corporate scandals and the ensuing financial ruin of companies and their stockholders proves that even the bluest of blue chip businesses cannot bank on the blind faith of consumers and investors. More than ever corporations must rebuild, restore and strengthen bonds of trust. Al Golin has helped

create trust strategies for global business leaders including The Walt Disney Company Hewlett Packard McDonald s Toyota Owens Corning and many others In Trust or Consequences he reveals how to create an effective trust strategy determine the impact of trust issues on stakeholders assess trust building performance and calculate the difficulty of restoring trust create a trust bank for saving deposits of good will to draw on as needed This invaluable resource offers tools for identifying trust opportunities as well as numerous inside accounts of trust building successes and failures by high profile organizations and leaders Filled with provocative ideas about why many companies overlook trust issues Trust or Consequences brings the subject to center stage where it must remain if companies are to regain stakeholder loyalty and competitive advantage
