

Writing an Informational Essay

HOOK (ANECDOTE)

Walking into class on the first day of school can be an anxious and exciting time. However, after taking a seat, every student's eyes slowly catch a glimpse of the assignment board. The bell has yet to ring; however, the class is aware of what lies ahead and anxiously awaits the teacher's announcement, hoping the board is a "welcome back to school" joke. They soon learn that it is no joke—on the first day of school, their teacher assigned an essay. Luckily, it is an informational essay that simply requires the class to detail their summer vacation. Writing an informational essay can be challenging, but knowing what to include in the introduction, body, and conclusion can help guide simplify the process.

BACKGROUND

THESIS

TOPIC SENTENCE

The first step in the process of writing an information essay involves the introduction. The most important part of the introduction is gaining the attention of the reader. Creating interest makes the reader more receptive to new ideas. After the attention grabber, the writer provides an introduction of the main topic, including any background information the reader needs to understand the essay. The last sentence then includes the thesis statement, which identifies the purpose of the essay and can include the writer's supports. Upon completion of the introduction, the next step in the development of an essay includes the body paragraphs.

EVIDENCE/EXPLANATION

TOPIC SENTENCE

The purpose of the body paragraphs in an informational essay is to explain the major points in support of the purpose statement. The first sentence of each paragraph should be a topic sentence identifying the main idea. The writer provides evidence to support that paragraph's specific topic. After identifying the evidence, the writer must explain how the evidence supports the claim identified in the topic sentence. After providing body paragraphs in support of the purpose identified in the thesis, the writer proceeds to the conclusion.

Informative Writing, Teacher Guide, Grades 9-12 PCG Education, 2016-06-02 Informative Writing Paths to College and Career Jossey Bass and Public Consulting Group Inc PCG are proud to bring the Paths to College and Career English Language Arts ELA curriculum and professional development resources for grades 6-12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require. Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies, and other classroom resources. The Paths Writing Units Argument Writing, Informative Writing, and Narrative Writing complement the full instructional program and can also be used independently providing in-depth writing instruction to support all students in grades 9-12 in meeting grade level standards. To emphasize the relationship between reading and writing, each Writing Unit includes accessible model texts that exemplify key elements of each text type and source texts that provide a topic for the unit writing assignment. Individual lessons guide students through the writing process, providing instruction on grammar and conventions and highlighting collaboration and reflection as key elements of effective writing. Students' final essays are assessed using a checklist developed by the class over the course of the unit. The organization and distinctive content of the model and source texts in each unit afford teachers the flexibility to implement each unit independently of the others and at any point during the curriculum. For example, a unit may be implemented to assess students' writing prior to implementation of the standard curriculum to scaffold writing instruction leading into a writing assessment or to support struggling writers by addressing gaps in skills as demonstrated in previous assessments. The Paths Writing Units provide teachers with invaluable opportunities to engage students as active participants in their own learning at every stage of the writing process and to customize instruction to meet the varying needs of all students.
