Smith,2020-11-03 The key to creating and growing a more unified and holistic church is the multi ethnic and Christ centered community that offers a strong connection between theology and practical ministry models and that nurtures believers who are wrestling with what it means to be the church of the Bible today Most books on racial reconciliation or multi ethnic ministry center on the theological foundations history or social problem aspects of the topic The Post Black and Post White Church offers a practical hands on blueprint for developing and sustaining a multi ethnic and Christ centered community Written by Efrem Smith an innovative and passionate African American leader of the Covenant Evangelical Church and founding pastor of Sanctuary Covenant Church in Minneapolis Minnesota this groundbreaking book shares his skills experience and wisdom for congregations who want to grow into a multi ethnic missional identity The Post Black and Post White Church connects theology and practical ministry models for wrestling with what it means to be church in an increasingly multi ethnic world that is polarized by class politics and race The book embraces Jesus as one who was both Jewish and multi ethnic and focuses on a theology of reconciled multi ethnic and missional leadership      **African-American Children at Church** Wendy L. Haight,2002 African American Children at Church explores African American socialization beliefs and practices based on findings of a unique four year long study in a Baptist church in Salt Lake City Utah By combining the ethnographic approaches of anthropology with the detailed naturalistic observations of developmental psychology Dr Haight provides a rich description of actual socialization practices along with an interpretation of what those patterns mean to the participants themselves Based on extensive interviews with successful African American adults involved with children this book begins with the exploration of adults beliefs about socialization issues focusing on the role of religion in the development of resilience Drawing from naturalistic observations of adult child interaction the book then describes actual socialization contexts and practices that help to nurture competencies in African American children The text focuses

on Sunday School and includes narrative practices and patterns of adult child conflict and play      **Strategies for Economic Development, Black Churches, and the Hartford Avenue Memorial Baptist Church Example** Kenneth Russell Brown,1999      **Financial Institutions and Black Churches** United States. Wilmore,2004-07-01 Gayraud S Wilmore an internationally renowned scholar of the history of the African American church is one of the founders of black theology and author of Black Religion and Black Radicalism Pragmatic Spirituality brings together some of his most compelling writings to speak to continuing issues in African American Christianity and black theology The volume makes available for the first time several of Wilmore s previously unpublished essays including a new chapter on womanist theology written for this book Each chapter has been thoroughly reviewed and where appropriate reworked for this volume in order to create a coherent work which reveals a consistent pragmatic spirituality in African and African American religious practice This book presents a view of the Christian faith and life at variance with the quest for personal sanctity by emphasizing communal empowerment for humanization and justice Pragmatic Spirituality incorporates some of the most engaging of Wilmore s voluminous writings to reinstate a persistent theme that black or Africentric faith transposes itself from basically numinous and ecstatic elements in African and African diasporic religions to the immediate and practical work of healing and empowering the poor and marginalized This book transcends a narrow Africentrism to call for a broad acquaintance with a historic motif in black faith that has to do with compassion justice equality and the liberation of all people This illuminating volume displays Wilmore s influence on the development of black theology for over fifty years and introduces his work to a new generation of scholars      *Democracy at Risk* Stephen Macedo,2006-05-25 Voter turnout was unusually high in the 2004 U S presidential election At first glance that level of participation largely spurred by war in Iraq and a burgeoning culture war at home might look like vindication of democracy If the recent past is any indication however too many Americans will

soon return to apathy and inactivity Clearly all is not well in our civic life Citizens are participating in public affairs too infrequently too unequally and in too few venues to develop and sustain a robust democracy This important new book explores the problem of America's decreasing involvement in its own affairs *Democracy at Risk* reveals the dangers of civic disengagement for the future of representative democracy The authors all eminent scholars undertake three main tasks documenting recent trends in civic engagement exploring the influence that the design of political institutions and public policies have had on those trends and recommending steps that will increase the amount and quality of civic engagement in America The authors focus their attention on three key areas the electoral process including elections and the way people get involved the impact of location including demographic shifts and changing development patterns and the critical role of nonprofit organizations and voluntary associations including the philanthropy that help keep them going This important project initially sponsored by the American Political Science Association tests the proposition that social science has useful insights on the state of our democratic life Most importantly it charts a course for reinvigorating civic participation in the world's oldest democracy The authors Stephen Macedo Princeton University Yvette Alex-Assensoh Indiana University Jeffrey M Berry Tufts Michael Brintnall American Political Science Association David E Campbell Notre Dame Luis Ricardo Fraga Stanford Archon Fung Harvard William G.K. **The Changing American Countryside** Emery N. Castle, 1995 The literature on rural America to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns As a result the real rural America remains much misunderstood neglected or ignored by scholars and policymakers alike In response Emery Castle offers *The Changing American Countryside* a volume that will forever change how we look at this important subject Castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands These authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional diversity The authors are especially effective in demonstrating why rural America is so much more than just agriculture It is in fact highly diverse complex and interdependent with urban America and the international market place Most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections To do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural Together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life
