Performance Work Teams and Organizations provides a unique perspective on this vital management tool. Focusing on performance improvement, it describes the intellectual foundation behind scorecards and demonstrates how metrics can be used to enhance feedback, motivation and employee engagement. The book offers a background primer on statistics and research methods, outlining the basics of metrics such as attributes, scope of measures and levels of analysis to help managers understand what should go into the scorecard and why. Key techniques for using scorecards are showcased and step by step guidance on creating metric scorecards for teams, departments and entire organizations is provided, including specialized situations such as customer service measurement or monitoring off site performance. Finally, managers are taught how to analyze results intelligently and translate metrics into effective operational practices. Extensive running examples address both service and manufacturing metrics and each chapter ends with a set of learning objectives. Includes a statistics chapter with an expanded discussion of power analysis and a reprint of Cohen's classic power charts. Offers a conceptualization section in each chapter that provides a vocabulary of metric terms. Presents an expanded discussion of Katz and Kahn's properties of an open system. Provides a description of how generic system theory concepts can be applied to the workplace. An extensive reference section with a step by step summary helps managers put it all together.
