Paratextualizing Games Benjamin Beil, Gundolf S. Freyermuth, Hanns Christian Schmidt, 2021-11-18 Gaming no longer only takes place as a closed interactive experience in front of TV screens but also as broadcast on streaming platforms or as cultural events in exhibition centers and e sport arenas The popularization of new technologies forms of expression and online services has had a considerable influence on the academic and journalistic discourse about games This anthology examines which paratexts gaming cultures have produced i e in which forms and formats and through which channels we talk and write about games as well as the way in which paratexts influence the development of games How is knowledge

about games generated and shaped today and how do boundaries between popular criticism journalism and scholarship have started to blur In short How does the paratext change the text From City Space to Cyberspace Amanda

Wasielewski,2025-10-01 The narrative of the birth of internet culture often focuses on the achievements of American entrepreneurs in Silicon Valley but there is an alternative history of internet pioneers in Europe who developed their own model of network culture in the early 1990s Drawing from their experiences in the leftist and anarchist movements of the 80s they built DIY networks that give us a glimpse into what internet culture could have been if it were in the hands of squatters hackers punks artists and activists In the Dutch scene the early internet was intimately tied to the aesthetics and politics of squatting Untethered from profit motives these artists and activists aimed to create a decentralized tool that would democratize culture and promote open and free exchange of information **Latin America for the Hitchhiker** Mik

Schultz,1973 *Ecocriticism, Ecology, and the Cultures of Antiquity* Christopher Schliephake,2016-12-07 Although current environmental debates lay the focus on the Industrial Revolution as a sociopolitical development that has led to the current environmental crisis many ecocritical projects have avoided historicizing their concepts or have been characterized by approaches that were either pre historic or post historic while the environmental movement has harbored the dream of restoring nature to a state untouched by human hands there is also the pessimistic vision of a post apocalyptic world exhausted by humanity s consumption of natural resources Against this background the decline of nature has become a narrative template quite common among the public environmental discourse and environmental scientists alike The volume revisits Antiquity as an epoch which witnessed similar environmental problems and came up with its own interpretations and solutions in dealing with them This decidedly historical perspective is not only supposed to fill in a blank in ecocritical discourse but also to question problematize and inform our contemporary debates with a completely different take on nature and humanity s place in the world Thereby a productive dialogue between contemporary ecocritical theories and the classical tradition is established that highlights similarities as well as differences This volume is the first book to bring ecocriticism and the classical tradition into a comprehensive dialogue It assembles recognized experts in the field and advanced scholars as well as young and aspiring ecocritics In order to ensure a dialogic exchange between the contributions the volume includes four response essays by established ecocritics which embed the sections within a larger theoretical and practical ecocritical framework and discuss the potential of including the pre modern world into our environmental debates *The Fictions of Translation* Judith Woodsworth,2018-02-15 In *The Fictions of Translation* emerging and seasoned scholars from a range of cultures bring fresh perspectives to bear on the age old practice of translation The current movement of people knowledge and goods around the world has made intercultural communication both prevalent and indispensable Consequently the translator has become a more prominent figure and translation an increasingly present theme in works of literature Embedding translation in a fictional setting and considering its most extreme forms pseudotranslation or self

translation for example are fruitful ways of conceptualizing the act of translating and extending the boundaries of translation studies Taken together the various translational fictions examined in this collection yield new insights into questions of displacement migration and hybridity all characteristic of the modern world The Fictions of Translation will thus be of interest to practising translators students and scholars of translation and literary studies as well as a more general readership
