*Hitlerovi dobrovoljni dželati* Daniel Jonah Goldhagen, 1998      **Bringing the Dark Past to Light** John-Paul Himka, Joanna Beata Michlic, 2019-06-12 Despite the Holocaust's profound impact on the history of Eastern Europe the communist regimes successfully repressed public discourse about and memory of this tragedy. Since the collapse of communism in 1989 however this has changed. Not only has a wealth of archival sources become available but there have also been oral history projects and interviews recording the testimonies of eyewitnesses who experienced the Holocaust as children and young adults. Recent political social and cultural developments have facilitated a more nuanced and complex understanding of the continuities and discontinuities in representations of the Holocaust. People are beginning to realize the significant role that memory of Holocaust plays in contemporary discussions of national identity in Eastern Europe. This volume of original essays explores the memory of the Holocaust and the Jewish past in postcommunist Eastern Europe. Devoting space to every postcommunist country the essays in *Bringing the Dark Past to Light* explore how the memory of the dark pasts of Eastern European nations is being recollected and reworked. In addition it examines how this memory shapes the collective identities and the social identity of ethnic and national minorities. Memory of the Holocaust has practical implications regarding the current development of national cultures and international relationships.

**Media Discourse and the Yugoslav Conflicts** Pål Kolstø, 2016-04-29 In spite of the growing literature on discourse analysis the relationship of discourse to violent non violent outcomes of conflict is an under researched area. This book combines theories on ethnic conflict identity construction and discourse analysis with a comprehensive and inclusive survey of the countries of the former Yugoslavia. It presents an understanding of the interrelationship between words and deeds grounded through an extensively close analysis of film television and newspapers samples taken from the period. This combination of ground breaking applications of theory with detailed empirical case studies will make *Media Discourse and the Yugoslav Conflicts* of key interest to scholars across a range of social sciences including sociology discourse analysis media conflict and peace studies as well as those concerned with ethnopolitical conflict.
