Over nearly 75 years Chrysler's Dodge and Plymouth brands have offered some of the most memorable and exciting muscle cars ever loosed on the motoring public. Arguably it all began with the 1951 release of the vaunted V 8 Hemi engine. This legendary beast passed through a handful of displacements until finally morphing into the all conquering 426 Chrysler's V 8 prowess shone in early 1960s factory lightweight drag cars then moved to muscle era classics like the Charger Roadrunner GTX Super Bee and Superbird. But it wasn't just about Hemis. Chrysler offered a variety of V 8 engines including 340 383 and 440 displacements fitted to other top flight cars like the Barracuda Challenger Cuda and Duster. No other Detroit automaker offered a wider variety of performance cars in the 1960 and early 70s. Emissions requirements and ever increasing insurance tabs put the squeeze on performance cars beginning in the mid 1970s and Mopar performance declined for decades. But it returned with a vengeance in the 21st century first in the guise of a new Charger 4 door and then the beloved retro design Challenger. Both of these iconic models were put to rest in 2023 but not before unleashing the wild 807 horsepower Dodge Charger SRT Hellcat Redeye and the outrageous 1 025 horsepower Dodge Challenger SRT Demon. Power to the people indeed. *The Complete Book of Dodge and Plymouth Muscle Cars* is a must have reference for all Mopar muscle fans. *Jane's World Railways 2007/2008* Ken Harris, 2007-11. Covers railway systems in nearly 140 countries worldwide. Includes key personnel organisations financial status current operations planned developments and traction rolling stock. Plus detailed maps and images and details for 2000 manufacturers suppliers and service companies. *Vincent Motorcycles* Philippe Guyony, 2021-10-28. Very few motorcycles have carved a mark in history like the Vincent V twin from its arrival in 1946 and up to the present day. On the road in club racing in drag races or competing for land speed records it dominated the motorcycle world leading to the famous catchphrase coined by the factory 'The World's Fastest Standard Motorcycle'. It was a FACT NOT a slogan. Images such as that of Rollie Free in swimming trunks laying flat on his works modified Black Shadow and taking the American motorcycle land speed record at Bonneville in 1948 have now passed into posterity. In fact the big Vincent was so ahead of its time that it continued to compete successfully almost arrogantly in racing until the mid 1970s against modern bikes. No other motorcycle in the world can claim this kind of achievement. Following the premature ending of Vincent production Fritz Egli's 1967 Egli Vincent was the first chassis completely redesigned for a Vincent in 21 years. Egli's machine inspired numerous builders for several generations and this book traces holistically the story of all those motorcycles in the broad context of the classic and modern history of the Vincent. Understand how the flame of passion still burns brightly today. **Runways & Racers** Terry O'Neil, 2011. Runways and Racers focuses on sports car races held at military installations throughout America in the early 1950s. It was a marriage of convenience for the Sports Car Club of America and the Strategic Air Command with both parties gaining advantages from the arrangement.
